

The book and important advices.

The complete book including the most important decryptions related to the 1716 Messiah Stradivari is available by using the QR Scanner below. Our data's are high resolution and we tried our best with the material evidence provided to offer high standards in scientific analysis.

Annibale Fagnola used the Jesuit hidden messages technic of insertion. He did so in all kind of materials. He was a master in that particular method of encoding secret messages. Only experts in ancient writings, freemasonry symbols and Romano Christian scribes have the ability to decipher the Fagnola enigmatic language. Traditional experts in lutherie failed to do so. Do not skip any parts of the reading or cryptology data's. From beginning to end, we applied logic and increased the level of difficulty in understanding the decryptions.

Many thanks for your support in finding the truth.
Because in matters of truth and Justice, we strongly believe.
