

Vixen Hill

Cedar Porch Enclosures

(610) 286-0909

VixenHill.com

Vixen Hill Home Products manufactures porch panels, posts and doors from #1 Grade Western Red Cedar from British Columbia Canada milled in our mill.

The easy to remove screen and/or tempered glass inserts inside an aluminum frame are quickly exchanged by turning the screen latches.

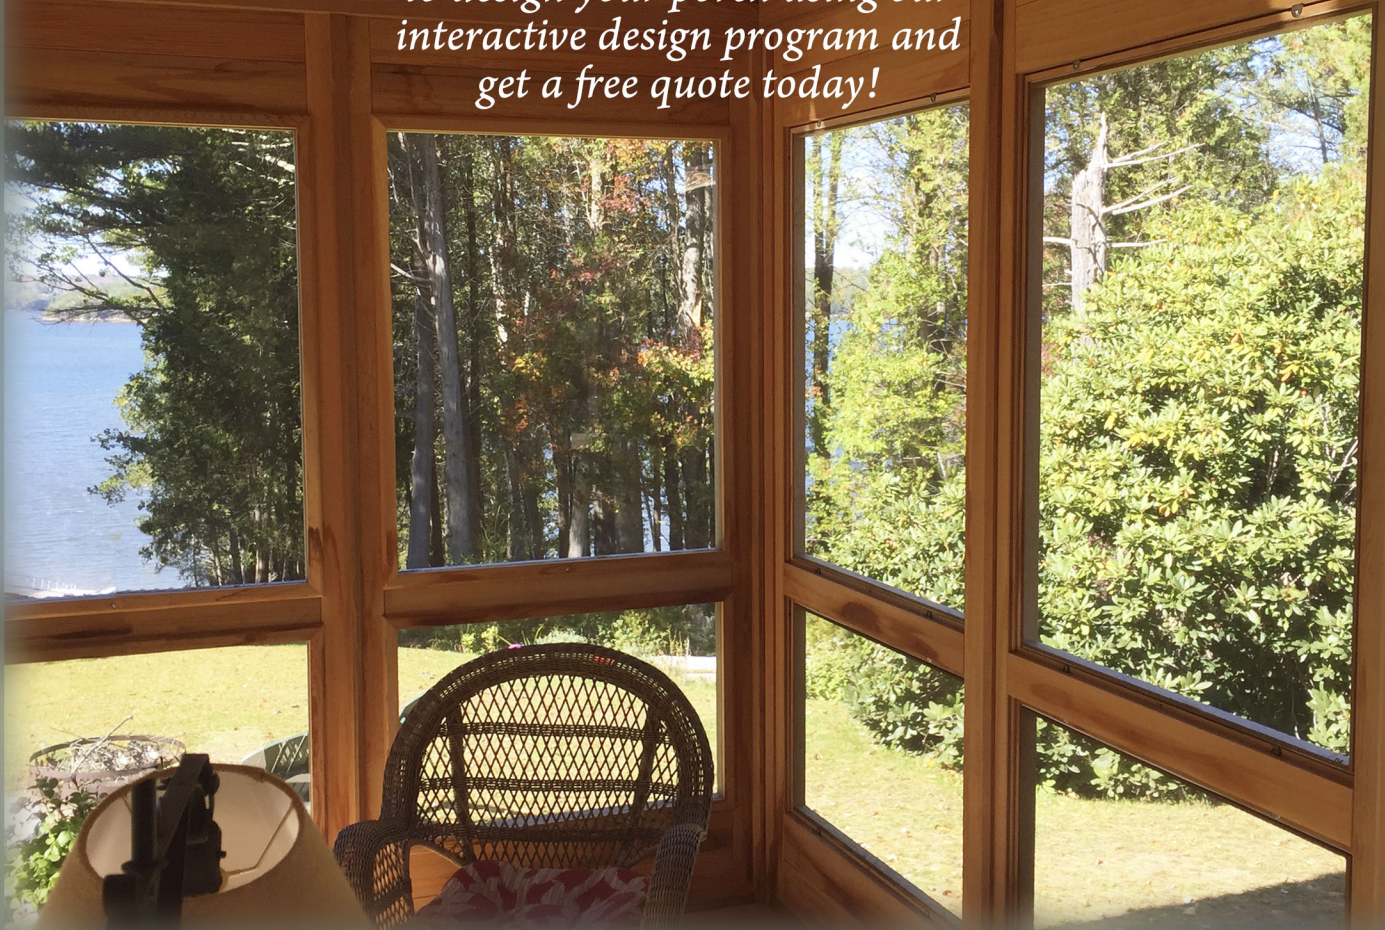

As an option, we offer a built-in solid cedar panel, if you want to block a view or desire a more enclosed look. In addition, a plain wood frame can be added to serve as a decorative trim around the openings. *(see picture right)*

Panel Sizes:

Widths: 23 1/4" - 30 1/4" - 36" - 49" - 63" (trim up to 6" / 3" each side)

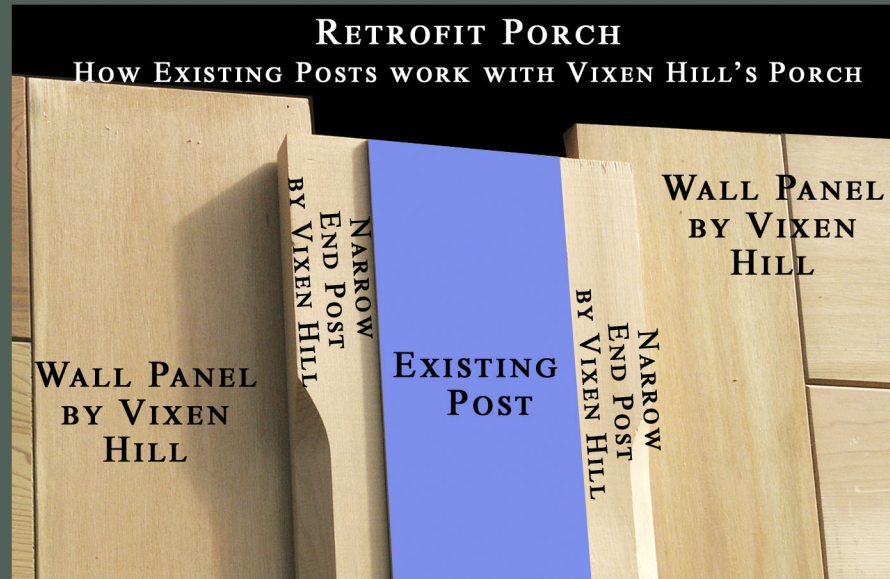

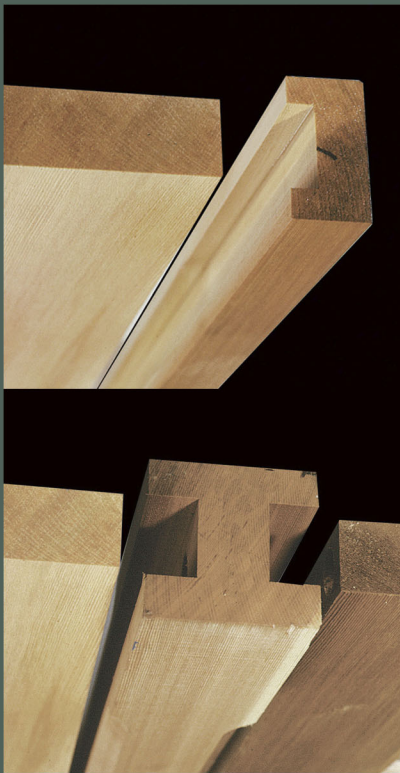

Heights: 83" - 98" without transom glass (see picture below)

99" - 120" with built-in transom glass (see picture above)

RETROFIT PORCH

HOW EXISTING POSTS WORK WITH VIXEN HILL'S PORCH

Trim panels up to 6" / 3" each side
AND trim threshold to the same
size. Install threshold between posts
join panel to threshold and posts.

Modular Structural Posts
for new construction :

Removable screen & tempered glass inserts in an aluminum frame
(brown or white)
