

CONSIDERING A QUALITY SQUASH COURT?

Game On ●●

Product features

Our unique sand-filled CT walls provide the perfect bounce and the special construction absorbs impact and vibration.

The special tongue and groove connection between panels guarantees durability and the final wall-coating provides a smooth, joint-free playing surface for all climatic conditions, suitable for all humidity levels.

CONTACT US

Call or email CourtTech and tell us what you're looking for.

1

Step One

TAKE MEASUREMENTS

After a discussion with our design consultants, send us a .dwg, pdf, or simple sketch with your room dimensions. In less than two business days, a CourtTech engineer will create a custom drawing that meets your design specs.

2

Step Two

ASK QUESTIONS

We'll answer any questions or concerns you have with the design. Once the design is approved by you, we'll send you a cost proposal.

3

Step Three

DESIGN APPROVAL

After consulting with your architect or general contractor, give us a "thumbs up" to proceed.

4

Step Four

CONSTRUCTION

We send you an order confirmation and begin building the best court in the business. Court construction typically takes 4-5 weeks and shipment from Germany takes 4 weeks.

5

Step Five

INSTALLATION

Our CourtTech certified installation team installs your court in 5 days.

6

Step Six

PLAY YOUR GAME

Begin playing on one of the finest courts in the world.
