This upgrade patch celebrates CodeBlade's second birthday and contains the following features to upgrade your games of CodeBlade:

1. Unique Characters 2025.11

The following Unique Characters may be used in games of CodeBlade. They are mostly 1PH cost characters that act like freelancers, but double-down on a faction's skills and abilities instead of acting as a mitigator for faction weaknesses. Each character is based on CodeBlade lore and real-world CodeBlade supporters. If you know CodeBlade, you know where they come from.
