

Guidon Security Consulting and Centralized Vision Begin A Strategic Channel Partnership

Guidon continues striving to add the most trusted security solutions to their list of Influential partners

PHOENIX - Dec. 5, 2019 - [PRLog](#) -- In a world where change is certain, experience is the best protection. Guidon Solutions offers security and technology consulting solutions for clients in a wide range of industries. Led by President and Founder, Anthony J. Rumore, our expert team provides leadership and strategic guidance to address critical client needs across Arizona. We also work diligently to secure the smartest security partnerships available. Whether you are in search for a security officer solutions, live video monitoring or a combination of the two, we strive to ensure we have the best partners on board for you.

Constantly looking to broaden our strategic channel partnerships amongst trusted security-related professionals, Guidon Security Consulting is very excited to announce a channel partnership with Centralized Vision (CV), the most trusted security surveillance business in the industry. President and Founder of CV, Tom Vigilante, has been a profound source for Anthony since meeting in the workplace in 2011. Anthony was eager to fortify a business partnership between Guidon and Centralized Vision after seeing the technological advancements and achievements of CV in recent years. These men have been in the security industry for decades and, together, they can create the most streamlined and advanced security system.

More About Centralized Vision

Established in 2007 by Tami and Tom Vigilante, CV has seen a spike in growth because of the opportunities it provides to monitor closed-circuit cameras in real-time, act as a crime deterrent because of posted signs surrounding its clients' properties and the ability with one-way audio speakers to warn would-be criminals they are being watched. Surveillance Specialists monitoring properties from a centralized Phoenix-based location 24 hours a day, 365 days a year have been successful in capturing and arresting trespassers, graffiti taggers and thieves as well as reporting other crimes or threats. Centralized

Vision, which currently monitors hundreds of locations across the US, provides real-time visual monitoring of various businesses, such as auto dealerships, retail centers, recycling facilities, schools, office buildings and warehouse distribution centers to name a few. <https://centralizedvision.com>
