

SUPPORT *Christie's* COURAGEOUS BATTLE WITH **HLH**

A COMMUNITY MEMBER
AND A BUSINESS OWNER.

For those who may not know, Christie has been quietly battling with a rare condition known as **Acquired HLH** for some time now on top of significant auto immune diseases.

Those of us who know her describe a person who is **kind, gentle, compassionate,** and **deeply resilient.**

Even while facing unimaginable challenges, she continues to fight forward with courage and grace.
