Daycare and Boarding Eligibility Policy

To ensure the safety, comfort, and positive development of all dogs in our care, enrollment in daycare and boarding services requires prior training and evaluation.

Eligibility Requirements

To be eligible for daycare or boarding, each client must:

1. Complete a Home Assessment

An in-home evaluation with a trainer to assess your dog's behavior, environment, and suitability for care in our home.

2. Complete at least transformational training package (minimum 8 sessions)

This ensures your dog learns our communication system, basic obedience, and expectations in our home environment.

OR

3. Successfully complete a Board and Train Program

Dogs completing board and train are automatically eligible as long as follow-up training sessions are maintained as recommended.

Why This Policy is in Place

We require training and assessments before acceptance because:

Structured training builds familiarity, confidence, and reliability in a home-based setting.

Trained dogs experience significantly less stress when staying in a new environment.

This approach maintains a calm, safe, and positive atmosphere for all dogs in our care.

It sets clear expectations and consistency between your home and ours.

Ongoing Requirements

Dogs who have completed board and train must continue scheduled follow-up sessions to remain eligible.

Lapses in follow-up training may result in suspension of daycare or boarding privileges until training resumes.

Dogs demonstrating regression, significant behavior changes, or safety concerns may require re-evaluation or additional training.

Important

Dogs arriving for daycare or boarding without having met these requirements will be refused service.

Cancellation fees may apply if eligibility is not confirmed in advance.

No exceptions are made for dogs who have trained elsewhere without completing our process

Getting Started

Step 1: Schedule your Home Assessment

Step 2: Enroll in a Training Package or Board and Train Program

Step 3: Complete the training requirements and follow-up plan

Step 4: Enjoy safe, structured, and rewarding daycare and boarding services in our home
