Clinical Trial Recruitment Challenges

Approximately **80%** of clinical trials are delayed or closed because of problems with recruitment.

90% of trials require the original timeline to be doubled in order to meet enrollment goals

11% of research sites fail to enroll a single patient

\$8b

Up to **\$8 million** in revenue is lost for every day a drug is delayed

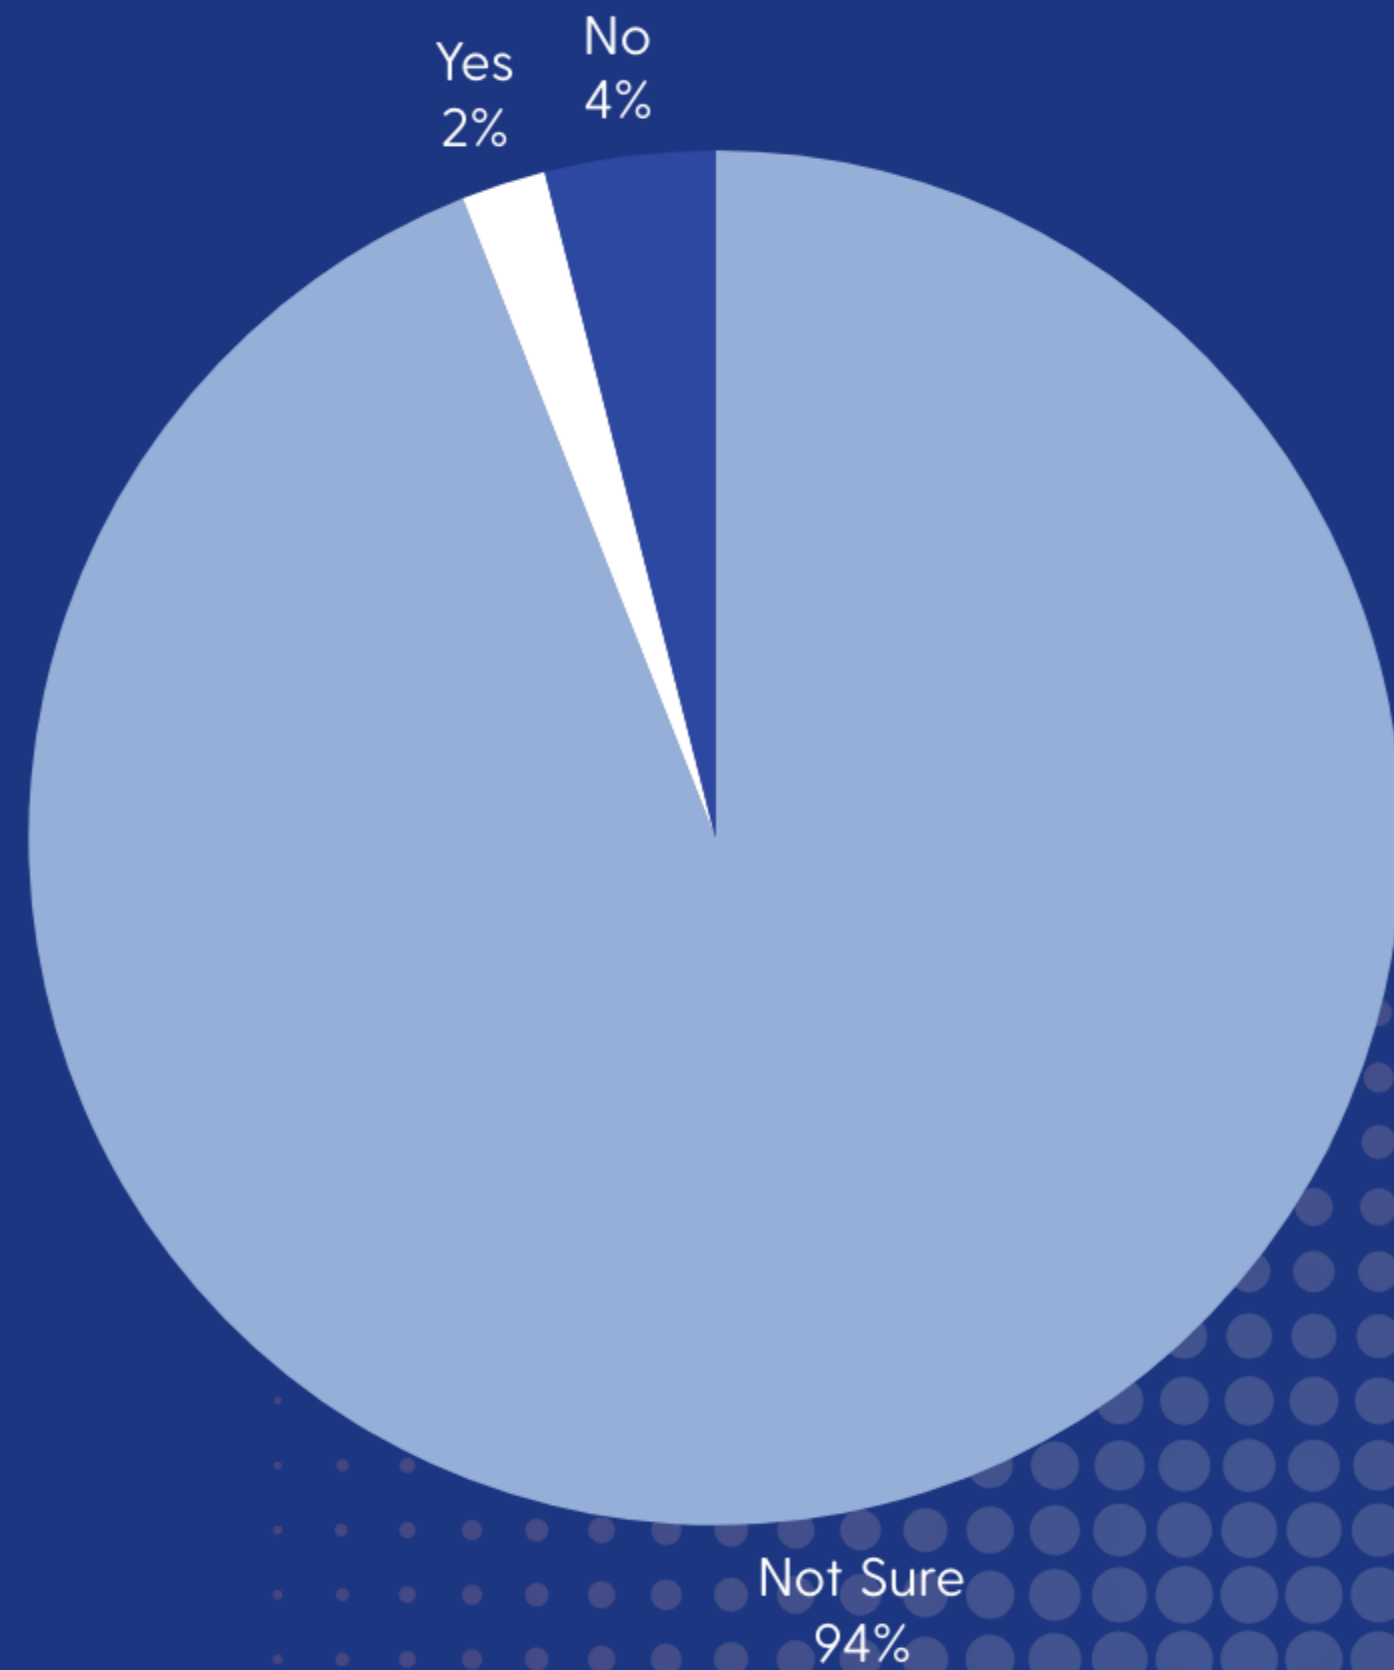

72% of the US Population is Caucasian yet this same population makes up 94% of all Clinical Trials"

Mission and Core Values

"At FindMyClinicalTrial, our mission is to bridge the gap between medical advancement and patient well-being by fostering a collaborative equity-based ecosystem that connects communities, hospitals, and research opportunities.

We are committed to empowering individuals with the information and support they need to actively participate in clinical trials, contributing to the development of groundbreaking treatments and improving healthcare outcomes."

Patient
Empowerment
Community-Centric
Transparent
Innovative

By living our values and pursuing our mission, we aim to revolutionize the clinical trial recruitment process. FindMyClinicalTrial is not just a platform, it's a movement to ensure that healthcare is more equitable, and patients have a voice.

Building connection for a more equitable future
