

August 13, 2025

Attention: Jordan Low-On
JAG FLOCOMPONENTS LTD
4123 53 AVENUE
EDMONTON, AB T3B 3R5

The design submission, Tracking Number 2025-03485, Web Portal Number 2025-S2828, originally received on May 23, 2025 was surveyed and accepted for registration as follows:

CRN : 0C06968.2 **Accepted on:** August 13, 2025

Reg Type: RENEWAL **Expiry Date:** August 13, 2035

Drawing No. : T3-1500/2500 NPTxSW, B3-900 NPTxSW, T2-T2W NPTxNPT Rev 5/5,2,2 As Noted

Fitting type: Floating Ball Valves

Design registered in the name of : DALIAN JAG FLOCOMPONENTS CO LTD

Description	MAWP	Design Temperature
See table 1 of AB-41		

The registration is conditional on your compliance with the following notes:

- This registration only covers the valves which are in full compliance with ASME B16.34, with respect to dimensions, pressure and temperature ratings, materials, markings, inspections, and testing etc, the valves which are listed in Table 1 Scope of Fitting Designs attached to AB-41 form and are listed on the reference catalogs.
- This is for renewal of CRN only. Registration does not cover product additions, material or design changes.
- This registration does not include threaded and socket welding-end valves larger than NPS 2 1/2 in.
- This registration includes the following catalogs: B3 Class 900, T2/T2W Class 900, T3 Series.
- It is our understanding that: (1) The hydrotest pressure for all pressure components under B16.34 code of construction shall be performed per the code of installation; (2) B16.34 valves with MDMT below -20 degree F shall perform further assessments for impact testing requirements per the code of installation based on B16.34 paragraph 2.3.2; (3) the valves meet the latest code edition of ASME B16.34; (4) the body wall thickness for classes 150, 300, 600, 900 T3 valve are suitable for class 1500 or class 2500.

As indicated on AB-41 Statutory Declaration form and submitted documentation, the code of construction is B16.34.

- It is our understanding that the fitting(s), included as the scope of this submission, that is(are) subject to the Safety Codes Act shall comply with the requirements of the indicated Standard or Code of Construction on the AB-41 Statutory Declaration as supported by the attached data which identifies the dimensions, materials of construction, press./temp. ratings and the basis for such ratings, and the identification marking of the fittings.
- This registration is valid only for fittings fabricated at the location(s) covered by the QC certificate attached to the accepted AB-41 Statutory Declaration form.
- This registration is valid only until the indicated expiry date and only if the Manufacturer maintains a valid quality management system approved by an acceptable third-party agency until that date.
- Should the approval of the quality management system lapse before the expiry date indicated above, this registration shall become void.

An invoice covering survey and registration fees will be forwarded from our Revenue Accounts.

If you have any question don't hesitate to contact me by phone at (587) 943-8741 or fax (403) 291-4545 or e-mail Zhangl@absa.ca.

Sincerely,

August 13, 2025

ZHANG, LILI, P. Eng.
DOP Cert. No. D00010626

STATUTORY DECLARATION
Registration of Fittings
Single or Multiple Fitting Designs within one Fitting Category

I, Eric Sauze, President
(name of applicant) (position title) (must be in a position of authority)
of Dalian Jag Flocomponents Co. LTD.
(name of manufacturer)
located at Jingang Group-9 No-49, DEPZ Dalian City Lianoning Province 116620
(plant address)

In this space, show facsimile of manufacturer's logo or trademark as it will appear on the fitting.

do solemnly declare that the fittings listed hereunder, which are subject to the Safety Codes Act
(select only one)

- ☒ comply with the requirements of ASME B16.34 which specifies the dimensions,
(title of recognized North American Standard)
materials of construction, pressure/temperature ratings and identification marking of the fittings, or
- ☐ are not covered by the provisions of a recognized North American standard and are therefore
manufactured to comply with _____ as supported by the
(title of code of construction or other applicable document)
attached data which identifies the dimensions, materials of construction, pressure/temperature ratings
and the basis for such ratings, and the identification marking of the fittings.

I further declare that the manufacture of these fittings is controlled by a quality control program which has been verified as described in the below Table as being suitable for the manufacturing of these fittings to the stated standard, regulation, code, guideline or other applicable document. The fittings covered by the declaration for which I seek registration are as provided in the Supplementary Sheet(s) attached.

Quality Program Verification and Manufacturing Sites

A copy of the Quality Certificate from each manufacturing site must be included

Item #	Product Description, Model or Series	Quality Program	Scope of Certification	Expiry Date	Verifying Organization	Location(s) Plant Name and address
1.	Ball Valves	ISO9001: 2015	Design and Manufacturing of Industrial	2026-01-30	TUV Rheinland	Jingang Group-9 No-49, DEPZ Dalian City
2.						

In support of this application, the following information, calculations and/or test data are attached:

Catalogues: T3, B3 Class 900, T2-T2W Class 900

(Signature of the Declarer)

(Date)

DECLARED before me at Edmonton in the Province of Alberta
(city) (province, territory, or state)

this 16th day of May, 2025
(Month) (Year)

(print) Gergely Hegedus
(a Commissioner of Oaths or Notary Public)
