

DEALER PRICE LIST 2025

SANITARY WARE | KITCHEN SINK | FAUCET | PIPES | FRP MANHOLE COVER

COMPANY PROFILE

For over 30 years, MARVEL SANITARYWARES has been synonymous with quality, style, Performance and precision. We Craft premium range of sanitaryware and bath fittings that redefine modern living.

With over 400 direct dealers and distributors across India, our reach is vast. Designed with precision and built to last, we bring you the perfect blend of form and function. Manufactured at state-of-the-art facility in Morbi, Gujarat spread across 4,18,000 square feet having sold more than 20 lakh closets alone around the country.

Our ceramic pieces are crafted to perfection, offering an unmatched level of whiteness with L value of >93 that radiates purity and sophistication. The brilliant white finish enhances the aesthetic appeal of any bathroom, making it look more inviting. Fired at 1200°C , the ceramics' glaze boosts strength and delivers a vibrant finish. With the best R&D team we make sanitarywares which are not only attractive to look at but also crafted in-detail to save water and give out utmost efficiency in water usage.

The future is challenging, but we are sure that we will beat the milestones set by us. We are setting a goal for 2035 to meet our vision of being the most recognized brand in bathroom solution for a long time that make homes better and lives happier. We inspire people to live their Dreams and drive Growth.

Together we can beat the Best and Lets Make it Happen.

WATER APPLICATION

CPVC

PIPES & FITTINGS

Made of chlorinated polyvinyl chloride, MARVEL CPVC Pipes & Fittings are manufactured according ASTM D-2846 respectively. MARVEL CPVC Pipes & Fittings offer a long-lasting and cost-effective solution for hot and cold water in plumbing and potable Water application

Features and Benefits:

- Smooth continuous flow of water due to smooth inner surface
- Low thermal expansion & conductivity
- Easy to handle & installation
- Flame & smoke resistant
- Most cost - effective
- Chemical resistant

Installation Procedure

1. CUT PIPE

Cut Pipe Square. As joints are sealed at the base of the fitting socket. An angled cut may result in joint failure.

Acceptable tools include miter saw, mechanical cut o saw or wheel cutter. Wheel type cutters must employ a blade designed for plastics.

2. Remove Burr & Bevel

Remove all burr from inside and outside of pipe with a knife-edge, file or deburring tool. Chamfer (bevel) the end of the pipe 10°-15°

Remove surface dirt, grease or moisture with a clean dry cloth.

3. Dry Fit

With light pressure, pipe should go one third to one half of the way into the fitting socket Pipes and Fittings that are too tight or too loose should not be used.

4. Applicator

Use an applicator that is one half the pipe diameter.

Too large an applicator will force excessive cement into the inside of small diameter fittings. Too small an applicator will not apply sufficient cement to large diameter systems.

5. Solvent Cement

Apply a full even layer of cement to the outside of a pipe and medium layer of cement to the inside of a fitting.

6. Set And Cure

Solvent cement set and cure times are a function of Pipe size, temperature and relative humidity. Curing time is shorter for drier environments, Smaller sizes and higher temperatures. It requires 10 to 20 minutes for perfect joint.
