

May 2021

Hello Port Residents,

I would like to thank everyone who helped with clean-up day. I was concerned that the weather was not going to be favorable, but it ended up being a beautiful day! We were able to rake up the debris and leaves in the ditches, pine needles from the field and gazebo area, the kitchen was cleaned, the gardens were weeded and attended to.

Again, thank you all! We cannot do it without you.

Site selection ran smoothly even though we had to have everyone come into the hall in groups. It was nice to look out the door and see everyone gathered outside in lawn chairs meeting up with friends and excited about what was happening inside. For me, site selection day, otherwise known as "lot pickin' day" to my friends, family and I, is one of the highlights at the Port. It is exciting to see what site may open, who is going to move where, but most of all seeing everyone and knowing that the season is underway.

The following weekend we had 14 trailer moves! Cox's, along with George Carter and Board Members worked from 9-5 and had an almost seamless day - only 1 flat tire held us up for a bit, but a fairly quick fix and we were done! I would call that a great day.

Thank you to ALL who helped. We are very appreciative of all of the volunteers that help keep the Port beautiful and safe.

- ♦ Just a couple of reminders - you are responsible for the maintenance and appearance of your trailer and site. If you have a boat stored in your storage lot you must have a current registration sticker displayed on your vessel.
- ♦ Propane sales will be available May 8th and 22nd from 9:00-9:30.
- ♦ Should anyone have an American Flag that needs to be properly disposed, Jens Maly is able to do that for you. Please place the folded Flag in a bag and Jens, located on site 137, can take delivery from you on Saturday, May 22nd.

Please remember to keep all of our service men and women, foreign and abroad, as well as their families in your prayers.

Sincerely,  
Kim Carroll  
President, PDMV

Americans eat enough hot dogs on July 4 to stretch from Washington, D.C., to Los Angeles five times.

That's more than 150 million (!) hot dogs, according to the [National Hot Dog and Sausage Council](#). But that's not all: Between Memorial Day and Labor Day, Americans consume a whopping 7 billion hot dogs, or 818 every second.

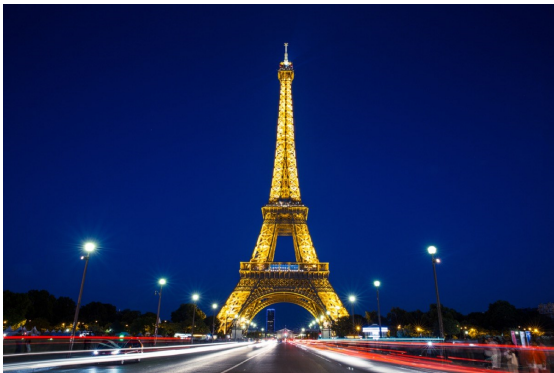

If you have something you would like in

The Eiffel Tower gets six inches taller in  
the summer.

If you want to see the Eiffel Tower in all of its glory, then you might want to head to Paris in the summer. That's because the 1,062-foot monument is more than six inches taller in the heat, thanks to thermal expansion, which causes the iron structure to expand, according to the *Los Angeles Times*. Even crazier, once the sun sets the tower begins to shrink again.

To all of our new  
Port Residents!

Consumers and some businesses in Delaware will no longer be able to use or distribute single-use plastic carryout bags at the point-of-sale starting January 1. Plastic carryout bags are commonly used to take items home from convenience, grocery and other retail stores. The Delaware Department of Natural Resources and Environmental Control urges consumers to bring reusable bags to stores instead and to clean/disinfect those bags between uses. The ban is designed to reduce beach and roadside litter, save landfill space, increase recycling efforts and help recycling facilities from having to shut down when plastic bags get stuck in the machinery.

"Each Delawarean uses about 434 plastic bags and that means nearly 2,400 tons of plastic bags end up in our landfills annually," said DNREC Secretary Shawn Garvin. "A decrease by the public of plastic carryout bags can mitigate a large portion of this waste, and help our environment by reducing the amount plastic bags on our roads and waterways that can harm us and our wildlife."

**House Bill 130** implementing the ban was sponsored by 12 legislators led by Rep. Gerald Brady and Sen. Trey Paradee, and was passed in 2019 and signed by Gov. John Carney. Retailers can choose to offer paper bags, or cloth bags, or a thicker type of plastic bag that is designed to be reusable. The law allows retail stores to charge a fee for the bags they provide at point of sale. DNREC advises consumers to wash or disinfect their reusable bags by turning them inside out and wiping them down with a disinfecting agent after each use.

Under the law, plastic carryout bags will no longer be available from larger stores (more than 7,000 square feet) as well as smaller stores with at least three locations in Delaware of 3,000 square feet each or more. Supermarkets and big-box stores are affected, as well as chains of convenience stores. Restaurants are not subject to the ban, nor are small stores with one or two locations.

All retail stores affected by the law are required to provide an At-Store Recycling program for plastic bags and other specific plastics, like cereal box liners, newspaper sleeves, and single-use produce or meat bags. The drop-off locations should be visible and accessible within the store. Bags that are no longer reusable or unwanted should be recycled at these locations. Plastic bags should not be placed in carts that are part of the state's curbside recycling program but should instead be returned to stores for recycling.

Consumers and retailers can find more information at [de.gov/bags](https://de.gov/bags).

# Avocado Mango Salsa

Yowzers! Sweet and hot salsa with tangy mangoes and habaneros. Great with pork, chicken or fish or just with chips. You can omit the habaneros and add red bell peppers for a non-spicy version, but then again, why would you want to? Remember, ALWAYS wear gloves when working with habaneros!

## Ingredients

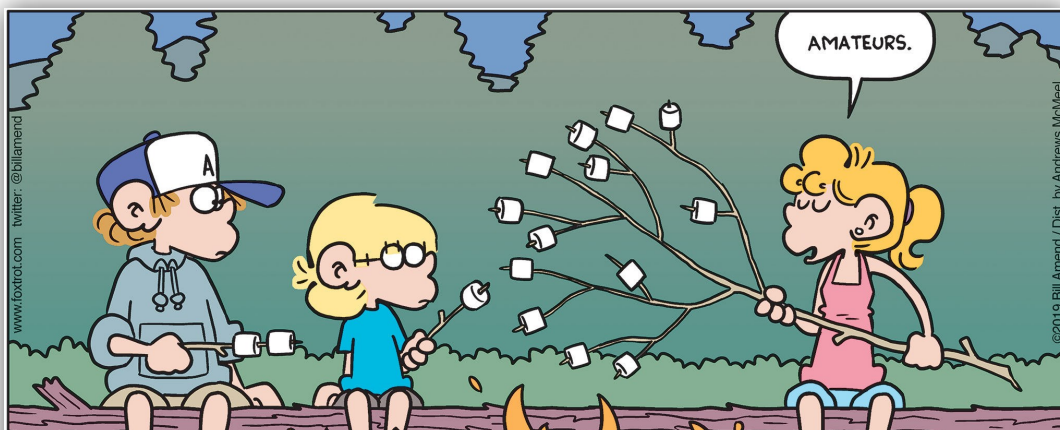

### Ingredient Checklist

- 1 avocado - peeled, pitted and diced
  - 1 lime, juiced
  - 1 mango - peeled, seeded and diced
  - 1 small red onion, chopped
  - 1 habanero pepper, seeded and chopped
  - 1 tablespoon chopped fresh cilantro
- salt to taste

## Directions

Place the avocado in a serving bowl, and mix with the lime juice. Mix in the mango, onion, habanero pepper, cilantro and salt.

## Pets At The Port

Good day to all the pet owners in the Port. My name is Betsy Hickman and I am the pet liaison to the Board. I have recently moved my site in the park and I can now be found on site 20.

I just want to remind all the pet owners, primarily dog owners of a few rules that you are expected to follow.

- All pet paperwork such as rabies certificate and a copy of your homeowners insurance must be handed in to Kim Carroll, the Boards President not me. I am not doing the paperwork anymore. I realize every pet gets their vaccines at different times, but to start off this year, regardless of already handing it in last year, it would be appreciated if you could get that info in ASAP. Kim has already given everyone instructions on how to send it to her. If you have a hard copy just put it in the mailbox at the office. Thank you.
- 6 foot or less, are the only leashes allowed in the park. No flexi leashes regardless of the length.
- Always carry a bag to clean up behind your pet. Please continue to keep our park clean. Disposal of waste should be thrown into the dumpster rather than gather in piles on your pads.
- See me for a blue reflector to be placed about 6 feet from your hitch when you go out and leave your pet behind. This alerts your neighbors your pet is in the trailer in case of the power goes out. Leave your phone number with a few friends so they can get in touch with you during an emergency.
- If you have a complaint about someone's dog, please try and talk to them first before coming to me. If that doesn't work please feel free to come and discuss your concerns with me.

Last but not least, enjoy sharing your summer with your dog, cat or birds and be safe.

The term the "**dog days of summer**" comes from astronomy.

This phrase wasn't inspired by lethargic, overheated pups. The "dog" in question is Sirius the Dog Star, which rises in the sky during late July as a part of the Greater Dog constellation, according to [National Geographic](#). To the Greeks and Romans, the "dog days" indicated the hottest time of the year, a period that was said to bring fever and other types of catastrophe.

Governor John Carney issued the 10th revision to the COVID-19 emergency order, easing outdoor table size restrictions in restaurants and suspending Delaware Interscholastic Athletic Association (DIAA) masking regulations to ensure consistency with the Governor's emergency orders and guidance from the Division of Public Health (DPH). **In effect as of 4/28/21**

### **For Restaurants (effective immediately):**

- Tables **inside** food and drink establishments are limited to **parties of six (6) persons** (no restrictions or max number of adults).
- Tables in **outdoor spaces** are limited to **parties of ten (10) individuals** (no restrictions or max number of adults).
- Signage can be removed, stating that parties at each table should be of the same household.
- Condiments and place settings may now remain on tables (no longer required to removed or wiped down between each use).
- Hand-washing/Sanitizing/Cleaning & Disinfecting guidelines have also been updated (removal of high frequency cleaning requirements and return to pre-COVID standards).
- No change to bar seating at this time.

No change to occupancy/capacity limits at this time. Read the full modification [here](#).

Read the press release [here](#).

## Rehoboth

During a special commissioners meeting April 27, Mayor Stan Mills told commissioners he would wait until Gov. John Carney's town hall before issuing any updates on the city's mask-wearing mandates.
