This is a hale Mary nobody will see coming.

Door opens.

We did it. We got a hold of him. Our ace in the hole

Receives a fair deal of tourists. Rich people and trust fund hipsters who seem to be permanently connect to their phones.

Two day trip, review operations

Sightings of a large creature. A leopard seal maybe  
Find dead penguins upon occasion.  
Have Cord sniff often.  
Zeke mentioned a palmer station wolfman.  
Marvins? Overhead?  
Grab a nap Boss. Big day tomorrow

#### **ACT IV**

Breakfast  
Chatting with people around station  
First group of tourists come to station while Bass there  
Haven't heard of Bass, which he enjoys  
((PUT IN KOLCHECK WHISTLING SOMEWHERE))  
Normal tourists stuff  
Report coming in of Hikers spotted heading towards the station, still about 40 miles out.  
Not uncommon. Extreme sport people love trekking the Antarctic coasts. We get one of two every summer season. I head out, make sure they're alright, have enough food and materials and don't need a trip back and then let them head on their routes. Bass should come with him.  
Time to head out, check and be back long before the banquet.  
Few more preparations

#### **ACT V**

Heading out.  
Chatting as they get close  
See the two hikers  
Wave them down  
Jack approaches, chats briefly, walks back to snowmobiles.  
Tells Bass something isn't right. They're acting off. Something is off.  
The two marshals begin walking back when there is gunshots. Everybody scrambles for cover.  
Bass and Jack behind a rock outcropping.  
Bass shoots one, the other is too well covered.  
Jack wolfs out. Heads over and tears the guy apart.  
Wolfman walks back.  
Bass draws on the wolf. Talking to Jack.  
Wolf reverts to human. Puts on spare set of clothes packed.  
Look, I'm cold. I'll explain everything, it's just. . .we have two dead Chinese guys here. One won't be so easy to explain. Recommend we . . .leave them here.  
Bass not onboard.  
Maps of region. Bass's scheduled arrival on station. Photo. Credentials ID them as Beijing DeWe Security Service  
Reliantly agrees.

#### **ACT VI**

Banquet

Dignitaries enthralled with Bass

Many questions through interpreters

Lots of delicious foods

Station leader from Great Wall was suddenly not able to make it

Discussion with Jack, what happened. Background, history

What about the two out there.

I'll take them out further. As a wolf I can carry each and head out quite a ways. They won't be found.

Explains about the Ice and controlled behavior while out here.

Doesn't want to leave. Enjoys being in control.

Others, he's not sure, but Vincenzo turned him, and somebody=y turned Vinchinso, So I guess there are more.

Bass' flight out.

Slight Dictation, ala Carl Kolchak on the dock after the werewolf boat came back.
