*Antwone was an **incredible** speaker and had the entire room completely engaged with his story and how he has used it to shape his life. Antwone spoke of the power that comes with "never stop dreaming of a better life" and how this got him through the most difficult times of his life.*

All feedback received from our 280 guests have been extremely positive regarding Antwone and his message. After his speaking engagement, he readily engaged with guests and took pictures with them, had thoughtful discussions, and overall, just was present with them - truly a gift to all that attended.

I cannot speak highly enough about Antwone and our experience with him! We have had other national level speakers for National Prevent Child Abuse Awareness Month and none have given us the overall quality and experience that Antwone did.
