

SINGLE PIVOT HOOK HOIST

Tel: 800.285.0666 | sales@wastequip.com | www.galbreathproducts.com

» **9,000 to 30,000 lb. capacity**

» **Container lengths from 6' to 20'**

Galbreath single pivot hook hoists feature a universal fit for nearly any chassis. The simple design of the single pivot hook hoist means fewer moving parts and less maintenance.

**SINGLE
PIVOT
SERIES**

STANDARD FEATURES

Ease of Operation

- Centered cab-mount Power Tower
- Plug n' Play wiring system
- Roller stools
- Standard inside and outside air controls

Safety

- Heavy-duty safety props
- Back-up alarm and hoist-up alarm with signal light on dash
- Stationary rear hold-downs
- Optional hoist-up speed-limiting parameters

Quality

- Stringent, multi-year product testing, engineering, solid modeling, and stress analysis testing ensure maximum product quality
- Customized engineering layouts are based on customers' chassis to ensure compatibility

Durability

- 3 micron filtration system with dual viscosity oil
- Two-part epoxy primer and paint*
- Hoist frames are huck-bolted to chassis*
- Steel oil reservoir is filter cart-ready
- Bumper with recessed LED lighting
- Direct mount pump
- Rubber mounted sealed lights
- Pivot joints feature hardened steel bushings and grease fittings
- Outboard supported upper lift shaft
- Lifetime warranty on frame and two-year warranty on hydraulics

All Galbreath products are designed to be compliant with ANSI standard container requirements.

AVAILABLE OPTIONS

- Lift axles
- Tires and rims
- Hydraulic/wet kits
- Air compressors for non-air chassis
- Additional lighting
- Bumpers, pintle hooks and reese hitches
- Various fender selections
- Toolboxes

SPECIFICATIONS

Notes for chart below:

- 1 Factory-tested with recommended container length and water level load.
- 2 When recommending container lengths, weight distribution, dump angle and overhang are factors.
- 3 Noted container lengths will overhang between 24" and under 48." Consult sales representative for additional details.

- 4 Total maximum height will depend on container. Consult engineering for clearance.
- 5 Consult engineering for best configuration.

GALBREATH QUALITY

Standard Features

FRONT STOP

The front and rear stops help lock the container for forward and backward motion

REAR STOP

"Plug n' Play" wiring system eliminates crossed wires, loose connections, corrosion and splices; allows for easy light replacement

OIL RESERVOIR

Oil reservoir is filter cart ready, reducing maintenance costs

Hoist frames are huck bolted to chassis, providing unmatched strength and durability (factory mount only)

CONTAINER HOOKS

Container jib hook meets DOT requirements for front container securement

TOOL BOX

The optional tool box comes in 20" x 16" x 24" long, 48" long steel and 36" long poly box

REAR ROLLER

Optional rear rollers aid in loading and unloading the container

REESE RECEIVER / PINTLE HOOK

Optional 2" receiver 3,000 lb. vertical load, 16,000 lb. gross trailer weight with LED light bumper. Pintle hook option comes with gladhands. The truck must have a trailer package at the rear (20k vertical and 100k tow rating)

TRUCK SPECIFICATIONS BY MODEL

ALL MODELS EXCEPT U9-HK-84 & U9-HK-120

- Front axle: 8,000 lbs. (min.) capacity with power steering
- Rear axle: 18,000 lbs. (min.) capacity
- 50,000 psi or more chassis frames
- Minimum section modulus = 15.5 in.³

MODELS U9-HK-84 & U9-HK-120 ONLY

- Front axle: 6,000 lbs. (min.) capacity with power steering
- Rear axle: 12,000 lbs. (min.) capacity
- 50,000 psi or more chassis frames
- Minimum section modulus = 10.7 in.³
