Recycling Sorting Solution

A simple, effective way to separate paper and solid waste at the source

**Sorting at the source**

The CORBI two-compartment bin (for solid waste and recyclable paper) is designed expressly for office waste collection programs.

- Allows simultaneous collection of paper and other waste
- Encourages separation of waste from recyclables
- Dual compartment model facilitates recycling
- Spacious compartment accommodates a range of paper sizes
- Easy to handle and empty

**Cost-effective and functional**

CORBI is the practical and advantageous solution for everyone in the recycling process.

- Detachable lid is ideal for waste paper collection
- Easy to empty: Paper slides easily into the compartment when the unit is tipped, using its two handles
- Ribbed design in all four corners keeps trash liners firmly in place
- Optional hot stamping adds graphic identity
- Waste compartment accommodates standard kitchen bags (42 x 56 cm/15.5 x 20 in.)
- Wide mouth for paper access (28.5 x 5.1 cm or 11-3/16 x 2 in.)

**Overall dimensions**

	In.	cm
Width	14 1/2	37
Height	13 3/4	35
Depth	13	33

**Waste compartments (interior)**

	In.	cm
Length	11	28
Width	4 5/16	11
Depth	8	20.3

**Weight**

	Lbs.	kg
Bin and lid	3.3	1.5
