

Mechanical Chassis Mounted Sweeper (ES351)

A proven single engine design that blends a superior collection of features which provides ownership advantages such as the tightest turning radius in the industry and a stainless steel hopper with a lifetime warranty.

Pure Vacuum (VT651/801)

The street sweeper the industry benchmarks sweeper performance by that integrates exceptional versatility with unmatched features that include a high performance fuel efficient fan drive system (5 year warranty and no belts), CANbus technology to ensure maximum performance and exclusive “one pass” sweeping.

Regenerative Air Sweeper (RT 655)

A highly regarded heavy duty full size (8.5 yd³ stainless steel hopper) regenerative air sweeper that delivers an optimum sweep performance along with superior fuel efficient fan drive system (5 year warranty and no belts) to achieve the lowest cost of ownership in its class.

Compact Sweeper (C201)

An innovative and highly maneuverable compact sweeper for tight confined spaces that include unparalleled features such as advanced CANbus technology to deliver remarkable sweep performance along with lowest cost of ownership in its class.

We are **THE ONLY** sweeper manufacturer to offer an all-inclusive warranty (2 years/2,000 hours) and an “entire debris hopper” constructed of stainless steel as a standard with a **LIFETIME WARRANTY**.
