

Pro-Saw

Range Options

Bomford offers a convenient choice for farmers and contractors wishing to utilise their Front Loaders or Boom Mowers for hedge and tree cutting. The three models range from 63" to 95" working widths with up to 8" cut capacity. All Pro-Saw attachments have protection for over speed and pressure to ensure safety.

- Low maintenance transmission with Powerband Belt drive
- High speed carbide tipped blades
- Options of hydraulic breakout or manual breakout
- Hydraulic head angling option or manual turnbuckle
- Range of fitting brackets for most loaders, telehandlers or Boom Mowers
- Left Hand or Right Hand build options
