Within this agreement MLC Labradors will be referred to as the seller and the person buying the puppy/dog will be referred to as the purchaser or buyer. Any references to the puppy/dog is interchangeable for either a puppy or a full grown dog. The seller expects that this puppy will be part of the family and treated as such.

72 Hour Requirement:

The puppy must be examined by a licensed DVM within 72 hours of receiving the puppy. If an exam is not completed by a licensed DVM within 72 hours then all health guarantees within this contract will become null and void. Buyer must send proof of the exam being done within 72 hours of receiving the puppy. If the puppy pick date falls within 72 hours of a federal holiday then the buyer will receive an additional 24 hours to get examined by a licensed DVM. Proof must be in the form of a picture of all paperwork from the vet. Paperwork must be on vet letterhead and must include buyer's name, name of puppy, sex, color, and date that the physical exam was completed. Typically all of this information is found on the bill of service. Proof may be sent by mail, email, and or social media to the seller.

The seller is not responsible for allergies, immunity levels, mites, pneumonia, mange, heat stroke, ringworm, conjunctivitis, intestinal worms and

parasites, fleas, ticks, ear infections, coccidiosis, parvovirus, giardiasis, underbite, overbite, undescended testicles, inverted / hooded vulva, and/or umbilical hernias.

***Exam must be completed and proof sent to seller no later than the following

Initial _____

Microchip:

The puppy must be microchipped no later than four months of age on _____ . Buyer must provide the seller with microchip number and proof of microchipping at time of microchipping. Acceptable forms of proof are a picture of the bill which state's microchip was issued, or a certificate of microchipping. This picture must contain the buyer's name, name of puppy and date. Proof may be sent by mail, email, and or social media. Failure to microchip the puppy and send proof by the above date will result in the health guarantees within this contract becoming null and void.

Initial _____

Medical History:

Buyer agrees to give permission to seller and/or sellers vet of choice to obtain medical records/imagines/results of testing from buyers vet when medically necessary. This will be done only when the genetic health of the dog is in question and with buyers knowledge. In the event that the sellers vet has different findings than buyers vet, the sellers vets findings shall rule.

Initial _____

Registration:

Puppy must be registered with the AKC no later than four months of age. Seller will only accept the litter record provided to them by AKC as proof of compliance. Buyer is to notify the seller once they have completed the AKC registration. This is to notify the seller of completion, as well as to inform the seller of the AKC name they have chosen for the puppy, for sellers records. Failure by buyer to complete the registration by _____ will result in all health guarantees within the contract becoming null and void as of 12:00am on the following date. We recommend using a unique name that best suits your puppy. The seller also recommends that registration be completed online, rather than by mail.

Initial: _____

Limited Registration:

The puppy is being sold with AKC limited registration. This means the puppy comes with no breeding rights. The puppy is intended to be a pet/companion only. If the puppy produces any offspring then all health guarantees within this contract will be null and void. We highly recommend having the puppy spayed or neutered after twelve months of age.

Initial _____

Genetic Guarantee:

The puppy is guaranteed to never receive an affected result for any genetic disease, in which both sire and dam have been tested for. The sire and dam have both been tested for Centronuclear Myopathy (CNM), Degenerative Myelopathy (DM), Exercise-Induced Collapse (EIC), Hereditary Nasal Parakeratosis (HNPK), Progressive Retinal Atrophy/ Progressive Rod-Cone Degeneration (PRA-PRCD,

PRCD), Retinal Dysplasia/Oculoskeletal Dysplasia 1 (RD/OSD), and Skeletal Dysplasia 2 (SD2). In the event that the puppy receives an affected result from a genetic testing company the puppy must be retested. This will be done at the buyer's expense, through a genetic testing company of the seller's choice. If the second test comes back as unaffected, that test shall rule. If the second test comes back as affected, a replacement puppy will be offered. The puppy will be replaced with a puppy of equal value from a future litter. To receive a replacement puppy the puppy being replaced must have proof of being fixed. When one becomes available and after the seller receives documentation of spay/neuter. If the replacement puppy is of greater value the buyer is responsible for the difference of price. If the puppy is not spayed/neutered and the seller does not receive documentation within 12 months no replacement puppy will be given. The seller has 12 months after receiving the documentation of spay/neuter to give a replacement puppy of equal value. If the original puppy is not fixed within 12 months of diagnosis, no replacement will be given. If the buyer does not wish to keep the puppy, the buyer must have the puppy spayed/neutered at their expense. The puppy is then to be returned to the seller. The seller has 12 months from the time they receive the puppy back to offer a replacement puppy of equal value to the buyer.

Initial _____

Hip and Elbow Guarantee:

The puppy is guaranteed for 12 months from date of birth against genetic/hereditary hip/elbow Dysplasia. Environmental conditions play a large part in this disease. Puppies should not be participating in training or exercise involving jumping, long distance running ect. Nor shall the puppy be allowed to jump in and out of vehicles, jump on and off beds/couches/chairs etc. Seller is not responsible for environmental Dysplasia. If a licensed, certified vet validates genetic/hereditary Dysplasia and the seller's vet also confirms genetic/hereditary Dysplasia the said puppy will be required to be spayed/neutered at the buyer's expense. Buyer must provide all images and medical reports to the seller's vet. Paperwork must be provided to the seller proving the puppy was fixed. The puppy will be replaced

with a puppy of equal value from a future litter. To receive a replacement puppy the puppy being replaced must have proof of being fixed. When one becomes available and after the seller receives documentation of the puppy being fixed. If the replacement puppy is of greater value the buyer is responsible for the difference. If the puppy is not spayed/neutered and the seller does not receive documentation within 12 months no replacement puppy will be given. The seller has 12 months after receiving the documentation of spay/neuter to give a replacement puppy of equal value. If the seller's vet determines the hip/elbow Dysplasia is environmental and not genetic/hereditary no replacement puppy will be given.

Initial _____

Lifetime Support:

If at any point the buyer can no longer care for the puppy/dog, the buyer is to contract the seller about rehoming the puppy/dog immediately. The buyer is not allowed to sell, rehome, or give away the puppy/dog. It is the seller responsible to find a new home for the puppy/dog. All documents related to the dog must be returned to the seller along with the puppy/dog. Including but not limited to AKC registration, vet paperwork and the buyer's copy of the contract. **NO REFUND WILL BE ISSUED TO THE BUYER.**

Initial _____

Media Release:

I, the buyer, grant permission to MLC Labradors, to use any form of photographs/videos sent to MLC Labradors and or shared on buyer's personal social media accounts. The seller has the rights to use the photographs/videos as they see fit for but not limited to advertising and updating on our personal and business social media accounts and websites.
