SEMI-DETERMINATE

LUCINDA GREEN BUSH TOMATO

OUR ALL-TIME FAVORITE!

Lucinda is a semi-determinate bush variety tomato that has unique foliage with carrot-like wispy leaves. It doesn't require pruning, but it will need a cage or staking because it is so prolific and weighed down with delicious fruit.

Height

Size

Maturity

NOTHING ELSE LIKE IT.

Produces round, mid-sized tomatoes beautifully striped in green-yellow with an amber glow when ripe. The interior flesh is nearly neon green in color and the flavor is both sweet and slightly spicy that tastes as if it has already been salted!
