**NORI HENDRIX MUSIC**  
**Official Press Release / Media Alert**

MOBILE, ALABAMA ---Nori Hendrix announces new representation, updated website, plans to record and upcoming show dates!

*"I am excited to be now be represented by Music Victors Agency and the results have already been fantastic; with new shows and a radio appearance! Having this kind of help creates a buzz and allows me to focus on my music" said Hendrix*

Nori and the MVA media production team are gearing up to record and produce a single and video wrapped around a song she wrote about her Dad who served in the US Military. Hendrix hopes to bring his story to life and positively impact others.

In 2013, after the death of her father, Nori packed her bags and moved to Mobile AL. She embraced the Gulf Coast and began writing and singing with a new purpose. She recorded her first album in Nashville at Hilltop Studios in June of 2014. This duet album "Memories of the Mother Church" was a nod to the great performers of the Ryman Auditorium.

*"We work from the Gulf Coast and offer our services on a national level with a direct connect to Nashville. Alabama has so much unseen, unheard talent and for that reason, we feel compelled to embrace our local music community. Nori is a major part of that and we were impressed with her many accolades and awards. Not bad for a solo artist who landed in Mobile only 5 years ago, she's a talent." said Nicole Rose, MVA*
