

CISSP Certification Training

About the Course

With unprecedented security breaches now being reported, the demand for IT security professionals has never been higher, and in the world of information security, the Certified Information Systems Security Professional (CISSP) certification is considered the gold standard. Furthermore, Frost and Sullivan reports that there will be a shortage of 1.5 million security professionals by 2019.

This course is aligned with (ISC)² CBK 2018 requirements and trains you to become an information assurance professional who defines all of the latest aspects of IT security, including architecture, design, management and controls. An increasing number of IT security positions require or prefer a CISSP certification, so get started with your CISSP training today. It's the perfect course to take in order to pass the CISSP exam in the first attempt.
