

## Technical Specification Sheet

### Dr.Mask Particulate Respirator

1801 N95 NIOSH TC-84A-9289

#### Key Features

- NIOSH approved N95 rating
- Adjustable nose clip
- Easy Breath Filter
- Nose foam
- Viral Filtration Efficiency 99.9%
- No exhalation valve suitable for COVID-19 protection

#### Private Brand and Mark Option

- Private mark in LOT number and box are available
- Could provide private brand label by NIOSH approval

#### Material Composition

- Filter – Polypropylene
- Straps – Polyester & Spandex
- Nose Clip – Aluminum
- Nose foam - Polyurethane
- Shell – Polyester
- This respirator contains no components made from natural rubber latex

#### Use For

- Use for solid particulates and liquid mists in concentrations not exceeding 10X PEL/OEL
- Always follow User Instructions and use in manners as indicated

#### Do Not Use For

- DO NOT use for gases and vapors, oil aerosols, asbestos, arsenic, cadmium, lead, 4,4-methylene dianiline (MDA), or abrasive blasting
- DO NOT use in any manner not indicated in the User Instructions

#### Approval and Standard

- NIOSH approved N95 particulate respirator
- Meets NIOSH 42 CFR 84 N95 requirements for a minimum 95% filtration efficiency against solid and liquid aerosols that do not contain oil.

#### Shelf Life and Storage

- 5 years from the date of manufacture
- Use By date on box in MM/YYYY format
- Store in a relative humidity not exceeding 80%, in a non-corrosive gas and non-chemicals environment, avoiding dust, sunlight, extreme temperature and humidity. Store the respirator in the temperature from -4°F (-20°C) and +86°F (+30°C)

#### WARNINGS

- The respirator provides protection against certain particles. It does not eliminate the risk of any infection or contracting any disease.
- Please consult the local authority if you would like to use it for medical purposes.
