The Credit for Caring Act would help eligible working family caregivers offset some of the cost of caregiving expenses. ### Alleviating Barriers for Caregivers (ABC) Act (S. 3109)

Sens. Ed Markey (D-MA) &  
Shelley Moore Capito (R-WV)

The ABC Act helps reduce red tape for family caregivers at the Centers for Medicare & Medicaid Services (CMS) in Medicare and Medicaid and Social Security Administration (SSA).

### Lowering Costs for Caregivers Act (S. 3254/H.R. 7222)

Sens. Jacky Rosen (D-NV) &  
Bill Cassidy (R-LA)

Reps. Vern Buchanan (R-FL)  
Mike Thompson (D-CA)

The Lowering Costs for Caregivers Act allows flexible spending account, health savings account, health reimbursement account, and Archer medical savings account funds to be applied to medical expenses for a parent or spouse's parent. Current law already allows you to use FSAs/HSAs to care for a spouse. The Act does not change current authorized medical expenses.
