

# MS6 Biometric Terminal

5" All-in-one Biometric Handheld Terminal for Every ID Mission

The Arena One MS6 biometric mobile terminal brings complete identity capture and verification capabilities to the field. Built on Android 13, it integrates fingerprint, face, and credential reading in one 5" compact handheld device—empowering teams to perform secure identification and authentication anywhere. The MS6 enables the capturing of high-quality biometric data and the verification of credentials through barcode or NFC checks with speed and accuracy. Backed by long-lasting power and reliable 4G connectivity, the MS6 is the ideal companion for national ID, financial services, voter registration, border control, and other mobile identity operations where trust and efficiency matter most.

## **Fingerprint Recognition**

FBI FAP 20 certified optical fingerprint scanner

## **Facial Recognition**

Supports accurate facial recognition

## **Contactless Card Reading**

Equipped with NFC card reader

## **Long Life Battery**

10,000mAh battery capacity

## **Barcode Scanning**

Supports fast barcode scanning

## **Open Operating System**

Android 13

## Biometrics

|                     |                      |
|---------------------|----------------------|
| Fingerprint Scanner | FBI Mobile ID FAP 20 |
| Facial Recognition  | Support              |

## Credential Reading

|                |                                                                     |
|----------------|---------------------------------------------------------------------|
| NFC            | ISO 14443 A/B                                                       |
| Barcode Reader | 1D, 2D, PDF417, QR code, Code 39, Code 128, DataMatrix, UPC-A, etc. |

## Basic

|                          |                                                                     |
|--------------------------|---------------------------------------------------------------------|
| Operating System         | Android 13                                                          |
| Processor                | Quad-Core, 2.0GHz                                                   |
| Memory (RAM+ROM)         | 4G+64G                                                              |
| Display                  | 5-inch capacitive touch screen                                      |
| Resolution               | 720*1280 pixels IPS                                                 |
| Camera                   | Rear: 13MP AF+LED Flash                                             |
| SD Card                  | Micro SD card, up to 256G                                           |
| Battery                  | 10000mAh/3.8V Hi-Performance Li-ion                                 |
| Charger                  | Input: 100-240V, 50/60hz, Output: 9V/2A<br>Fast charging capability |
| Weight                   | 495 g                                                               |
| Dimension (W*L*H)        | 84.8*211.72*56.57 mm                                                |
| Temperature and Humidity | Operating: 0°C~50°C, 10%~75%<br>Storage: -20°C~60°C, 5%~85%         |

## Communications

|           |                                  |
|-----------|----------------------------------|
| 3G/4G     | Support                          |
| Wi-Fi     | 802.11 a/b/g/n/ac                |
| Bluetooth | BT 5.0                           |
| GPS       | GPS + GLONASS + Galileo + Beidou |
| SIM Card  | Micro SIM Card*2                 |
| PSAM Card | PSAM Card*2                      |
| USB       | USB Type-C*1                     |

## Certification

|               |               |
|---------------|---------------|
| Certification | CE, FCC, RoHS |
|---------------|---------------|

## Applications

- National ID
- Financial Inclusion
- Beneficial Programs
- Voters Authentication
- SIM Card Activation
- Mobile Time & Attendance
