THANK YOU!

Last week, I celebrated my birthday! Little did I know, Jessie, our graphic designer, second daughter and great friend, placed a little article on Facebook concerning my birthday! She got me good, as she knows I really don't do Facebook, except to look over Roger's shoulder at his Facebook sometimes! Something to the tune of: If you see Dawn out anywhere tell her Happy Birthday or maybe send her a card to the office! Well, I had people tell me Happy Birthday before my birthday in random places and just out of the blue. I received a couple of birthday cards and thought that's strange. I called out Roger on it and said did you put something on Facebook about my birthday? He quickly replied no! Then it hit me... Jessie! She didn't want to fess up but one day I got about five cards at work, I knew then.

First of all, thank you Jessie for thinking of me...it was pretty cool, even though I thought I was losing my mind! Second, thank you to everyone

who said Happy Birthday to me, it was really appreciated. And to those who mailed me birthday cards, and sweet, sweet cards, thank you so much! I also received a Ziplock bag full of cards from the Westside Senior Center, so precious they are! I was really touched to receive so many! I taped them all up on the window at work so I could admire them this week, too! Thank you again for making me feel so special for my birthday! What a special birthday it was! Thank you again!
