## JUST MY OPINION

---

*Roger R. West*

You just can't make this stuff up. Democrat Congresswoman Alexandria Ocasio-Cortez (NY), better known as AOC and a Squad member had her office release a statement Sunday that she has tested positive for COVID-19. It states: "Representative Ocasio-Cortez has received a positive test result for COVID-19. She is experiencing symptoms and recovering at home. The Congresswoman received her booster shot this fall and encourages everyone to get their booster and follow all CDC guidance." The part that you just can't make up is the hypocrisy of the far left. New York has some of the most stringent and ludicrous mandates in order to "keep people from contracting COVID." AOC constantly complains about people not following the socialist mandates implemented by the Democrats.

The irony in this is she was caught vacationing in Florida during the New Year holiday partying it up at a drag club with celebrity Billy Porter (whoever that is). While in Florida, the little hypocrite was photographed on many occasions not wearing her mask as she preaches about its necessity for everyone to follow CDC guidelines. Photos also show her hugging and kissing Porter, who does not live with her. While partying in Florida she skipped voting in person at the Capitol in Washington D.C. because of the "ongoing emergency pandemic". She did make a response to the criticism by stating, "She is criticized because her political opponents are upset because they want to date her." That's quite an ego!

Let's explore some fact-backed thoughts

that were shared with me. 1) The National Guard is not required to take the jab until June 2022, yet they are the ones replacing the nurses in NY who have refused the jab. This is not about a virus. The goal is to enact martial law and continue with the implementation of the New World Order and socialism. 2) Why are Democrats more outraged at the living conditions of illegal aliens than U.S. citizens (their own constituents) living in squalor? 3) They're spending trillions, and want to watch your spending of \$600. Do you get it yet? 4) "If dead people and illegals were voting for Republicans, Democrats would not only want voter IDs they would also want fingerprints, an eye scan and a DNA sample", stated by Mark Keith Robinson. 5) If a high school kid flipping burgers deserves \$15.00 an hour (\$2400 a month) then why isn't that the minimum Social Security payment? 6) So far the only thing Joe has built back better is the Taliban. 7) Democrats expect us to believe they can clean up the earth and environment, yet they can't even clean up their own districts and streets. 8) The only time Maxine Waters isn't the dumbest person in the room is when Nancy Pelosi is in that same room. And last but not least, 9) If you think an 18-year-old is too young to own a rifle...but a 16-year-old is mature enough to vote...a 14-year-old is old enough to get an abortion without parental consent, and a 3-year-old is mature enough to decide their own gender...Then YOU Are The Problem!

As always...that's just my opinion!
