

JUST MY OPINION

Roger R. West

The war rages on! We Americans are facing so many attacks on our Republic and it is coming from so many different directions. We are being assaulted from the southern border, from the liberal Democrat Congress and the Muslim community. I know many will say, whoa, the Muslim community as a whole is no threat to America. I say, wake up! There is nothing in the Muslim Islamic doctrine that is conducive to the American way of life. The Koran or Quran is full of hate for anyone that does not believe in Mohamad.

A disgusting video that has been circulating on social media shows a Muslim school presentation that should turn the stomach of every red blooded American. This did not occur over seas, this is happening right here in America. The presentation was videoed in a Philadelphia Islamic Center. The presentation by these children had those singing songs about beheadings and sacrificing their lives for Allah. They chanted “we will sacrifice our souls without hesitation,” “We will chop off their heads”, “Those who accept humiliation-what is the point in their existence? Those who reject oppression are the ones who assert their existence and they eliminate injustice from the land of the Arabs, Rebels! Rebels! Rebels!” As they chant about being rebels they bend over and get their scarfs from the floor and wrap them around their necks. Then they continue singing “The blood of martyrs protect us. Paradise needs real men! The land of the Prophet Muhammad’s Night Journey is calling us. Our Palestine must return to us. Oh Saladdin, your men are among us, shame will be

washed away! You need force and the Quran, oh free people! We must persevere no matter what happens, and with the help of the Omnipotent Lord, day will follow night. My Islam is calling, who is going to heed its call? Rise oh righteous ones!” They go on singing or chanting, “They compete with one another to reach Paradise. Will Jerusalem be their capitol city or will it be a hotbed for cowards? We will defend the land of divine guidance with our bodies and will sacrifice our souls without hesitation.”

Now keep in mind these are elementary and middle school children. The Muslim American Society (MAS) released a statement stating, “Not all songs were vetted. This was an unintended mistake and an oversight in which the center and the students are remorseful. MSA will conduct an internal investigation to ensure this does not occur again.” The statement from MAS is infuriating in the sense that they seem upset that this was released to the public, not that they are radicalizing and indoctrinating their children against all who are not Muslims. One of the individuals that founded the MAS is also a high ranking member of the Muslim Brotherhood.

This type of indoctrination should not be allowed in America. So don’t be fooled by the message that all Muslims are not against our way of life. It is their mission to convert and control all nations. They have already made headway in Europe and by the looks of things; we Americans are giving them free reign to destroy us also. Islam is not a religion it is a cult and a governing coup.

As always...that’s just my opinion!
