
JUST MY OPINION

Roger R. West

Let me just begin this week's column with exactly how I feel. Congresswoman Rashida Tlaib and Congresswoman Ilhan Omar are a complete disgrace to this country and to the office of the House of Representatives! They are two of the most disgusting and evil women to have been elected to serve this nation. I honestly think they are more disgusting than Hillary and that's saying a lot in itself. I also just as strongly support Prime Minister Netanyahu and President Trump for their true leadership in stopping the circus these two women had planned while in Israel.

If you don't know what I am speaking about, these two Muslim Congresswomen have openly condemned Israel, openly support BDS. The BDS is a movement by the Palistines that stand for Boycotts that involve withdrawing support from Israel; Divestment urges banks, local councils, churches and others to withdraw investments from Israel, Sanctions include campaigns to pressure governments to not aid or assist Israel by banning business with Israel, end military trade as well as suspending Israel's membership in the UN and FIFA.

Last week, 41 Democratic members of Congress and 31 Republican members of Congress went to Israel on a trip sponsored by American Israel Education Foundation. Tlaib and Omar could have easily gone on that trip with fellow Congress members, but refused. Instead they decided to go to Israel themselves, with their trip being planned by Miftah, a vicious anti- Semites group. Miftah is a nonprofit organization headed by a Palestine lawmaker. The group actually supports terrorists and have openly celebrated Dalal Al Mughrabi who assisted in killing 13 Israeli children.

They tout her as a hero.

I cheered when Prime Minister Netanyahu forbid the two Congresswomen from entering Israel. I applaud President Trump for encouraging Netanyahu to ban these women. That is a true demonstration of loyalty to a sister nation. These women were not going to learn about Israel, they had plans to visit the West Bank and promote their anti-Israel agenda and place shame on America.

After being denied entry, Tlaib contacted Israel and requested a Humanitarian Visit so that she could see her 90-year-old grandmother. She stated it may be the last opportunity to visit her elderly grandmother. Tlaib stated she would not promote her ideology while in Israel. Within a few short hours, Israel agreed to allow her to visit her grandmother. So to prove her deep hate for Israel, she decided it was beneath her to go see her grandmother because she felt she was bowing down to Israel and was humiliated by their initial ban.

Now the "New Democratic Party" says they will consider congressional retaliation against Israel for banning these two Muslim anti-semitic Congresswomen. This is very dangerous ground that the New Democratic Party is trotting on. America's support of Israel is of the utmost importance. When America denounces Israel, God will surely denounce America.

I have but one more statement/question: How is it even possible to have Muslims serving in Congress when they refuse, due to their beliefs, to uphold the United States Constitution? That should automatically prevent them from any Federal Office.

Of course...that's just my opinion!
