I made an appointment same day and the massage therapist was very kind, accommodating and was willing to help with my head, neck and shoulder pain. She was very experienced and professional. She is very skilled at head and neck massage and was able to help me with relieving tension headache pressure by massaging my head, neck and facial sinuses. I would highly recommend!

I got the best massage I ever had at Pure Health Spa. The caring masseuse was very considerate. After a few massages, my hip pain and swollen feet felt much better. I feel more powerful when walking. I highly recommend this shop for the elderly.

Had some bad sciatica pain and went in. The massage therapist did a terrific job stretching me and working the area. Relieved a lot of pain and I am very appreciative
