

SURFACE SOLUTIONS FOR SCULPTURAL ELEMENTS

December 22 at 10:00-3:00

bring lunch

lunch time results party TBD in January

using the test pieces created ahead of time, we
will address the following questions:

- What glaze and other surface treatments are useful for sculptural surfaces?
- How does the surface treatment transform the form, accent it or contradict it.
- How do the gloss or matte, opaque and transparent properties of glaze affect your pieces?
- How do underglazes work with these textures?
