

State Rep. Karen Boback
invites you to a

Spotted Lanternfly

SEMINAR

Thursday, March 21
6 p.m.
Triton Hose Company
116 W. Tioga St., Tunkhannock

This session will cover general information including initial detection, impacts of pest feeding, recorded damage and control methods.

Spotted Lanternfly feeds on more than 70 varieties of plants, including hardwood trees, grapes, apples, peaches, ailanthus, hops and certain ornamental plants.

This event is contingent on sufficient pre-registration. Reserve your seat by contacting Rep. Boback's Tunkhannock office (see contact information below).
