

THE GRIT GAZETTE

THE OFFICIAL GRIT GIRL GROUP NEWSLETTER

CUT THE RIBBON

BY ABBEY RINDLISBACHER

We were delighted to host our first in-person event on April 8th, 2022. This event was significant as it was the first time we got to meet our Grit Girls in person and see the impact of our organization immediately. Thank you to the speakers, the attendees, and the volunteers who contributed to such an incredible evening.

To recap, we heard words of wisdom from Mayor Kaufusi, Miss Utah and Archive Sunday CEO Sasha Sloan, Axia Branch Manager Marilee Jensen, Sols CEO Liz Reyes, Miss Provo Whitney Gillman, and Miss Orem Claire Inouye.

Each speaker shared their advice for women pursuing leadership positions and having the courage to be a genuine leader.

After the speakers finished all participants were able to mingle with one another, eat delicious food provided by Costco, and network with one another. We are aware of at least two business partnerships so far that are a direct result of this event. Way to go grit girls!

We are looking forward to hosting our next event this coming June for girls ages 5-11 and for our next networking night on August 4th, 2022. We hope to see you there!

UTILIZING WOMEN IN THE WORKPLACE

BY ELIZABETH TURNER

The workplace is constantly changing. It seems as though many people are struggling to find footing in this new environment of Zoom meetings and distractions around the house as they work. Women have had the brunt end of these changes as COVID reshaped the workplace.

In a recent Forbes article, the author advised management to better utilize women as assets in the workplace. By recognizing the feats of employees, management can see higher engagement. Mentorship and advice are also vital as it gives a support system and knowledge to female employees. Lastly, becoming an advocate for ideas and participation from women in the workplace means more success for a company and fewer interruptions or discomfort for employees.

Women are vastly essential and have a solid ability to uplift teams and businesses. As business shifts to hybrid settings, management should not default to bad habits but rather adapt with their employees and continue encouraging their hard work.
