TECH CENTER COMPUTERS & RECYCLING

6823 South Dayton Street • 303-792-3516 • www.techcentercomputers.com
Monday-Friday 8 a.m.-5 p.m. and Saturday 10 a.m.-3 p.m.

Looking for affordable, high-quality refurbished or new custom computer equipment, or quick service and repairs? Search no further than Tech Center Computers & Recycling, conveniently located off Arapahoe Road in Greenwood Village. Since 1999, they have supplied the Village community and surrounding area with more than just desktops, laptops, servers, parts and pieces. A reliable business partner backed by a solid guarantee, fast and friendly service, and incredible sourcing capabilities, Tech Center Computers is your one-stop resource for your individual or business needs.

Tech Center Computers originally started as a wholesale computer supplier in 1999. The current owner, Adam Kelly, has been with the business since 2001 and purchased the company in 2017 when the former owner decided to retire. According to Kelly, “Our mission is to listen to our client’s specific needs and deliver high performance products through continuous product innovation and operational excellence.”

They carry refurbished equipment from Dell, HP, and Lenovo, and can custom-build Intel and AMD-based desktop systems to your specifications. If you need a new computer but want to keep the data, Tech Center Computers can remove photos or data from your computer and will certify the data destruction of sensitive material. Inexpensive refurbished computers are available starting at \$99. This is a fantastic option for families needing multiple computers or laptops.

Tech Center Computers offers reasonably priced service and repair with quick turn-around time — usually less than 72 hours. Are you unsure if your computer is worth repairing? This company offers a free five-minute diagnosis to determine if repair or replacement is the best financial decision. Kelly states, “Most computers are made to last and can be upgraded to prolong their life.” If your computer is running slow, upgrading to more memory or faster storage may solve your hardware problems. Virus cleaning or operating system reloads are also available.

Tech Center Computers also provides reasonable upgrades if you no longer have support for your old operating system. If you are searching for hard-to-find parts for older equipment that you need to keep running, they have excellent sourcing capabilities to locate needed parts. They can also provide at-home support through their business partners.

Corporate and individual electronic recycling is also available across all of the Front Range, from Castle Rock to Brighton, including drop-off or pickup. Tech Center Computers is an EPA Certified Recycler of computer and electronics waste. They are licensed with the State of Colorado as a large quantity handler of universal waste for electronic recycling. You may contact them to schedule a pickup of your unused electronics. They will take everything, including furniture, and none of the equipment gets put in a dumpster — it all

has a place to go. Businesses can get free recycling if items can be refurbished or there is a nominal charge for items that cannot be reused.

Tech Center Computers' newly remodeled showroom is conveniently located at 6823 South Dayton Street, one block south of Arapahoe Road. They are open Monday through Friday 8 a.m. to 5 p.m. and Saturday 10 a.m. to 3 p.m. Join their mailing list to be the first to hear about new products, upcoming sales, and special discounts. For more information, visit www.techcentercomputers.com or contact them by telephone at 303-792-3516. *GV*
