

Vignes Lake

YARD OF THE MONTH

The Yard of the Month award for May is another repeat winner, 9552 Vouvray. This was a very hard award to give this month, as there were at least a dozen worthy winners.

FINANCIALS

The bank balance at the end of March was \$29,039.99 Many have already paid the \$150 annual maintenance fee. The remaining group are being sent a reminder and the status will be given next month.

WELCOME

Well it would appear Winter is finally losing the war with Spring so Summer won't be far behind. It's nice to see so many of our residents taking advantage of our streets, walking dogs, walking or jogging for exercise and kids riding various toys.

LAKE REPORT

As you may have noticed, we are beginning to develop algae again in the lake. Our chemical treatments were slowed due to the aeration system being placed back in service and the addition of a third fountain. The hope being that enough aeration would be supplied to eliminate algae growth. However, as a result of this algae development, the treatment with "beneficial bacteria" was again initiated May 2. The Board will monitor this algae growth and supply additional treatments as required.

Message From The President

As you exit our subdivision, you may have noticed the sign boards which we use to advise/entertain our residents. Several volunteers have handled the posting of these messages in the past with the most recent poster having moved to Delaware. In her absence, the president, has assumed this role. I would like to see if anyone else is interested in assuming this role? If you would like to volunteer for this activity, or would like more information on the the role, please contact me.

Thanks
Robert Perkins 225.678.4842
