

# Spanish River Carbonatite SRC Plus

For Organic Use · OMRI.org

Multi Mineral Soil Amendment  
20% SiO<sub>2</sub>, 25% CaO, 3.0% MgO, 2.0% P<sub>2</sub>O<sub>5</sub>  
Calculated Total Elemental Analysis  
9.4% Si, 17.9% Ca, 1.8% Mg, .87% P

## Unprocessed 100% Quarried Mineral Product

Spanish River Carbonatite SRC Plus is a natural unprocessed soil amendment, which is appropriate for use for organic and conventional crops. Spanish River Carbonatite SRC Plus contains a suite of minerals, which are quarried from an ancient magmatic deposit in Northern Ontario.

### Guaranteed Total Analysis

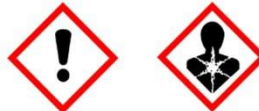

Phosphorous (P <sub>2</sub> O <sub>5</sub> )	2.0%
Potassium (K <sub>2</sub> O)	1.0%
Calcium	17.9%
Magnesium	1.8%
Iron	6.0%
Manganese (MnO)	0.15%
Sulfur	0.05%
Cobalt	18ppm
Copper	40ppm
Zinc	78ppm
Nickel	5ppm

### Precautionary Statement

Trace quantities of free silica. May cause damage to organs (lungs) through prolonged or repeated exposure. Irritation to lungs, respiratory system, and eyes.

This soil amendment contains, cobalt, copper, iron, manganese, zinc, and should be used only as recommended. It may prove harmful when misused.

Material Safety Data Sheet available from:  
SRC Agrominerals Inc.; <http://srcagrominerals.ca>

### Application Instructions:

A soil test, including pH, should be made to determine current soil nutrient levels and acidity. SRC is appropriate for all crops. This product can be applied at any time of the year. The recommended application rate is 450kg to 900kg per hectare (1000 lbs. to 2000 lbs. per acre). This product should be used as part of a recommended complete fertilizer program relating to the fertility and physical condition of the soil.

### Fineness of Screening:

Passes 10 mesh Tyler screen....97%
Passes 60 mesh Tyler screen ...62%
