

2025 marked a milestone year for MidnightSolo Black Russian Terriers as we celebrated 20 years of our canine family. It was a year that reflected not only longevity, but consistency, depth, and purpose behind every breeding decision made over the past two decades.

I am deeply grateful to my breeding partners and MidnightSolo puppy owners. Your commitment to training, competing, health testing, and living with these dogs as they were meant to be lived with is what makes these achievements possible.

Looking back, 2025 stands as another strong year in MidnightSolo history.
