EXPECTATIONS

At the end of the module, you should be able to:
1. check normal server functions in accordance with manufacturer's instructions;
2. install and update required modules/add-ons on NOS installation procedures ;and
3. confirm network services based on user/system requirements.

PRE-TEST

Directions: Read the following statement carefully. Encircle the letter of the correct answer.

1. It is a computer on a network that is used to provide users on a network with access to files is called_____
   A. DNS Server   C. file Server
   B. DHCP Server   D. web Server
2. Administrative tools can be accessed by activating_____
   A. close button   C. start button
   B. save button   D. restart button
3. What is the next page after you have configured already the administrative tools?
   A. DHCP Server   C. server Manager
   B. file Server   D. web server
4. This is the page where you can assign the role of the server.
   A. file Services   C. roles summary
   B. IP Address   D. validate role
5. What will you check after you have clicked add role and next button?
   A. file services   C. roles summary
   B. IP Address   D. validate role
6. You will check "File Server Resource Manager" after clicking what role?
   A. file Service   C. file role
   B. file Server   D. file only

7. The next procedure after checking "File Server Resource Manager is to_____?
      A. Click Next > Disk Local   C. Click Next > File Services
      B. Click Next > Local Disk   D. Cleck Next > File Server
8. The place where you can assigned all sharing folders and files into it is called_____?
      A. local Disk C: C. local disk E:
      B. local Disk D: D. local disk F:
9. The second to the last procedure in installing File Server is called_____
      A. Close   C. roles
      B. Install   D. valid
10. The last page must be closed as the last step of the the process.This statement is _____
       A. false   C. satisfactory
       B. maybe   D. true

LOOKING BACK

Directions: Read the following statement carefully. Encircle the letter of the correct answer.
1. DHCP stands for_____
      A. Domain Host Control Protocol
      B. Dynamic Host Control Protocol
      C. Domain Host Configuration Protocol
      D. Dynamic Host Configuration Proctocol
2. The version of IP address used in configuring DHCP role?
      A. v3   C. v5
      B. v4   D. v6
3. If you want to locate server manager you must find_____
      A. administrative tools   C.DNS
      B. DHCP   D. IP Address
4. This the tab you click if you already set the desired IP address.
      A. continue   C. next
      B. game over   D.valid
5. What will be the next step after validating IP address?
      A.add DHCP   C. add password
   B. add IP address   D. add scope name

BRIEF INTRODUCTION

File server is a computer on a network that is used to provide users on a network with access to files.

**How to install File Server Role in Windows Server 2008 R2**

1. Click **Start** button
2. Go to **Administrative Tools**
3. Click **Server Manager**

4. Locate **Roles Summary** then click **Add Roles**
5. Click **Next** Button

6. Check **File Services** in the list of Roles then click **Next** button
7. Click **Next** Button

4

8. Click **Next** Button
9. Check **File Server**
10. Check **File Server Resource Manager**

11. Click **Next** Button
12. Check **Local Disk** that you will use then click **Next** button
13. Click **Next** button

14. Click **Install**

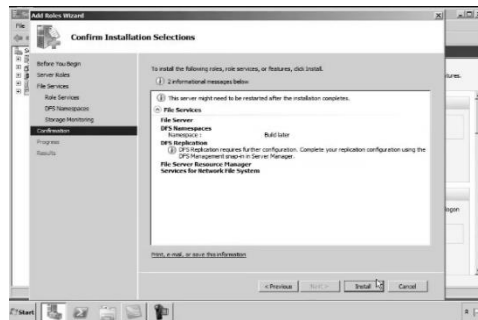

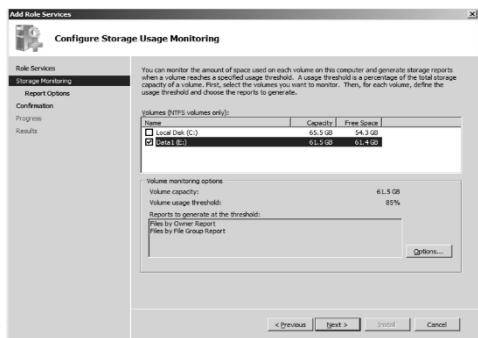

15. Click **Close** button

ACTIVITIES

***Directions:*** Label each picture with corresponding step in adding File server role.

A.

B.

C.

D.

E.

REMEMBER

Directions: Explain and write your answer on the spaces provided for.

1. What is the function of File Server?

    _____
    _____
    _____
    _____

2. List and summarize the steps in adding File Server role

    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____
    _____

CHECK YOUR UNDERSTANDING

Directions: Arrange the steps in adding File Server role. (Refer to Activity 1 and use the corresponding letter to each picture)
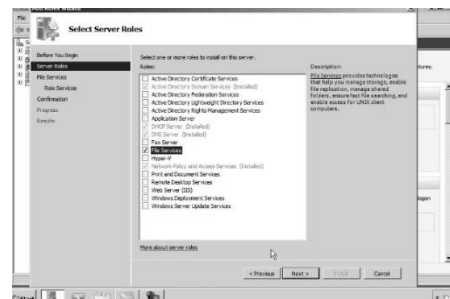

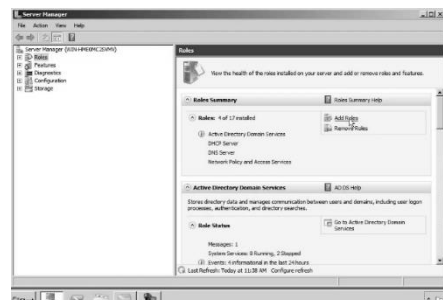

1. _____   3._____   5._____

2. _____   4. _____

POST TEST

Directions: Read the following statement carefully. Encircle the letter of the correct answer.

1. Which of the following procedures will that show the given diagram?
   A. valid> Add scope
   B. start>Server Manager
   C. start>Adminstrative tools
   D. administrative tools>Server Manager

2. What will you do in order to proceed to the next step?
   A. click Next > DHCP Server
   B. roles Summary > add roles
   C. type Scope Name > starting IP
   D. click Next > preferred DNS Server

3. The picture shows what particular procedure installing file server?
   A. file role > click Next
   B. filename > click Next
   C. file server > click Next
   D. file services > click Next

4. It is a computer on a network that is used to provide users on a network with access to files is called_____
   A .DNS Server   C. file Server
   B.DHCP Server   D. web Server

5. Administrative tools can be accessed by activating_____
   A. close button   C. start button
   B. save button   D. restart button

6. What is the best description of the procedure presented in the diagram?
   A. check file server > File Server Resource Manager
   B. check File Services > File Server Resource Manager
   C. check File name > File Server Resource Manager
   D. check File > File Server Resource Manager

7. The next page you that will you encounter after the previous step (Question #6) and clicking the next button is _____
   A. administrative tools   C. file Server
   B. DNS Server   D. local Disk

8. The common storage area used in file server assigned in sharing files and folders is called_____
   A. local disk A: C. local disk C:
   B. local disk B: D. local disk D:

9. Which of the following best describes the diagram provided?
   A. click install   C. click Save
   B. click close   D. click Restart

10. You will check "File Server Resource Manager" after clicking what role?
   A. file Service   C. file role
   B. file Server   D. file only

ANSWER KEY

Pre-test

1. C
2. C
3. A
4. A
5. C
6. A
7. B
8. B
9. B
10. D

Looking Back

1. A
2. B
3. A
4. D
5. D

Activity

A. Click Install
B. Check local disk
C. Administrative tools and click server manager
D. Check file services
E. Roles Summary and click roles

Check your understanding

1. C
2. E
3. D
4. B
5. A

Post Test

1. D
2. B
3. D
4. C
5. C
6. B
7. D
8. A
9. B
10. A
