SPECIAL PROGRAM IN TECHNICAL VOCATIONAL EDUCATION (SPTVE)
DRESSMAKING 9
Q3-Week-7

- I. Topic: **How to Attach Lapped Zipper**
- II. Objectives:
1. identify the steps on how to attach a lapped zipper.
 2. follow the techniques in attaching a lapped zipper.
 3. value the importance of following the steps in attaching a lapped zipper.

III. Brief Introduction of the Lesson

Lapped Zipper- skirt zipper in a skirt or a dress is usually put in using a lapped technique or a centered zipper technique. For both of these techniques, you will require the zipper foot on the sewing machine. Lapped features on one side of the seam- the left-hand side- covering the teeth of the zipper to conceal them.

Steps on how to Attach Lapped Zipper

1. sew the seam, leaving enough seam open to accommodate the zipper.
2. Secure the end of the stitches.
3. Insert the right-hand side of the zipper first. Fold back the right-hand seam allowance by 1/2 in (1.3cm). This folded edge is not in line with the seam.
4. Place the folded edge against the zipper teeth. Baste.
5. Using the zipper foot, sew along the basting line to secure the zipper tape to the fabric. Sew from the bottom of the zipper to the top.
6. Fold back the left-hand seam allowance by 5/6in (1.5cm) and press. Place the folded edge over the sewn line of the other side. Pin and then hand baste along the fold line.
7. Starting at the bottom of the zipper, sew across from the center seamline and then up the side of the zipper. The finished zipper should have the teeth covered by the fabric.
