

**Solar4Shaw O&M Services**  
**Professional Operations, Maintenance & Construction**  
**Services for Solar Assets**

# About Solar4Shaw

Solar4Shaw Ltd is a family-owned business delivering high-quality, full turnkey solutions across the UK solar and renewable energy sector.

We support asset owners, operators and EPCs with bespoke Operations & Maintenance services, designed to protect performance, safety and long-term asset value.

Every site is different. Following an initial consultation, we develop tailored maintenance strategies aligned to site conditions, compliance requirements and operational objectives.

Where high standards are expected — and delivered.

## Why Choose Solar4Shaw

- Nationwide Coverage.
- Experienced teams delivering reliable O&M services across the UK Specialist Solar Expertise
- Dedicated solar-focused crews with utility-scale experience.
- Safety & Compliance First
- All works delivered in line with industry best practice and site-specific RAMS.
- Bespoke Maintenance Plans Tailored solutions built around your asset, not a template.

# Core Operations & Maintenance Services

- Solar module cleaning (SunBrush, robotic & water-fed pole systems)
- Domestic, commercial & utility-scale cleaning
- Planned & reactive O&M inspections
- Thermal imaging & performance surveys
- Grounds maintenance & vegetation management
- Grass cutting (tractor-mounted & robotic systems)
- Weed spraying & fence-line control
- Access road construction & refurbishment
- Fencing, piling & civil works
- Commercial electrical maintenance
- Battery Energy Storage Systems (BESS) — supply & installation

# Solar Module Cleaning

Professional solar module cleaning services designed to maximise generation output and minimise long-term degradation.

Using industry-leading SunBrush and robotic cleaning systems, Solar4Shaw delivers efficient, low-risk cleaning solutions suitable for utility-scale, commercial and rooftop installations.

Cleaning programmes are tailored to site conditions, soiling levels and operational requirements.

# Grounds Maintenance, Civils & Access Infrastructure

Solar4Shaw provides comprehensive groundworks and civil engineering support to keep solar assets accessible, compliant and operational year-round.

Services include:

- Access road construction and renewal

- Trenching and duct installation

- Fencing and security infrastructure

- Piling and structural works

- Long-term vegetation and site management

Delivered by experienced teams with a strong focus on safety and quality.

# Electrical Maintenance & Battery Energy Storage Systems

We deliver commercial electrical maintenance and Battery Energy Storage System (BESS) solutions to support modern solar assets.

Solar4Shaw offers-

- Commercial electrical maintenance
- BESS supply and installation
- Systems ranging from 115kW to 1MW
- Integration with existing solar infrastructure
- 

All works are carried out by qualified professionals in line with current regulations and industry standards.
