Why Strengthen Your Pet's Immune System EVERY Day? To Help Shield It From All This...

Backyard pesticides, fertilizers, bacteria, and viruses that attack your pet's immune system;

Carpet backing, which contains formaldehyde, toluene, benzene, xylene, styrene (Pregnant women are warned to avoid new carpets; but your pet buries his nose in it every day); **toxins are brought in on shoes** (pesticides, lawn fertilizer, bacteria, viruses);

Pet Foods, most contain hormones, pesticides, meat by-products, preservatives, grain and corn (major sources of allergies)

Household Toxins (floor cleaners, bug killers, air freshener phthalates, household mold);

Pet Treats loaded with sugars and fillers, they promote diabetes and liver problems in pets;

Mouth Toxins – 80% of dogs and 70% of cats have periodontal disease by age three, dumping toxins into their bloodstream;

Seasonal Problems (allergies, dry skin)
