The purpose of the grant program is also to encourage active participation in the arts. It is designed to encourage teachers and administrators to create projects that will not only expose students to the arts but also to motivate and inspire their students to think creatively and act creatively as they are involved in these projects or programs. The goal is to provide experiences for students to become familiar with all aspects of the arts. The visual arts, creative writing and literature experiences, and the performing arts would be considered appropriate for this grant opportunity.
