- Identify, document, and track defects
- Conduct functional, regression, and usability testing
- Validate API responses using testing tools
- Collaborate with developers to resolve issues
- Participate in sprint testing and release cycles
- Ensure product stability before deployment

Technical Skills

- Understanding of SDLC & STLC
- Knowledge of different testing types
 - Functional Testing
 - Regression Testing
 - Smoke Testing
 - Integration Testing etc
- Writing test cases & test scenarios
- Bug reporting and defect tracking
- Knowledge of API testing
- Understanding of web & mobile application workflows
- Understanding of automation testing concepts
- Understanding of test scripts and test frameworks

Eligibility Criteria

- BCA / BSc (CS/IT) / BE / BTech / MCA
- Strong foundation in programming fundamentals
- Academic project in web development preferred
