

We have been diligently chasing ammo and components with no luck so far. We do have some economy ammo left from the end of last year but it will be limited until we can procure more. That means that the policy that was in effect last fall concerning shell purchases from the club will remain in use. We suggest that if you haven't been watching closely you start buying ammo any time you can find it. Walmart in Beatrice and Lincoln have been putting TRAP LEGAL ammo on the shelves occasionally and you need to be there at the right time to get it. Obviously other retailers have been offering ammo also so be aware that shells may not be available from the club!
