

## **AFTER SERVICE INSTRUCTIONS**

1. Do not enter your residence for 2-3 hours after service.
2. You will see a higher level of pest activity up to 1 week after service. Please be patient and give the materials time to work.
3. If an additional service is needed please keep your residence prepped for the next visit.
4. Do not spray or fog for roaches or bed bugs after our treatments.
5. Do not clean over any treatments until the infestation is eliminated.
6. Wait until all treatments are complete until you vacuum or clean the floor.
7. Clean up (spot cleaning only) any dead roaches and bed bugs with a vacuum or tissue.
8. Repair holes in the wall, voids in plumbing areas, leaking faucets, or any other concern areas identified by the tech. This will help eliminate re-entry of any pest to your residence.
