

Brazilian Ecosystem Titles K-3

Smokley Educational Imports was started because for 25+ years in education and educational publishing I have been asked so many times for materials in Portuguese.

Brazil is the sixth largest economy in the world. Portuguese is the second language in Massachusetts and Rhode Island. Portuguese is on the State Department list of critical languages, with many opportunities to study in a Portuguese speaking country under programs funded by the government. I look forward to working with you, and having my catalog grow.

Se eu fosse uma árvore
If I were a tree

By Talita Nozomi
What if I were... a bird, a flower, a stream? The reader imagines being a tree. A very beautiful and welcoming tree. People stop by, birds visit and then transport seeds far away. Even though a tree has to face winter, it also goes through spring. And it's really nice to make everything around us more lively and happy.
