	9788525051448	Maluquinho Assombrado	Every child is afraid, but they love hearing about a scary, mysterious story and feeling butterflies in their stomach when the story ends. It's no different with the Maluquinho Gang: in the book Maluquinho maravilha, Ziraldo presents thirteen comic strips that put these famous kids in the middle of hair-raising situations. Inspired by popular culture, the author has the gang act alongside folklore characters, such as the werewolf and the headless mule, and even with a famous urban legend – that of the blonde in the bathroom. “The ghost stories have everything to do with the tradition and culture of our grandparents, and with the stories they told us,” recalls Ziraldo.
	9788525053985	Maluquinho Pega Na Mentira	GLOBINHO  Many children are imaginative and like to make up stories. Sometimes to get them out of boring tasks, like doing homework or taking a bath, sometimes just for the sake of creating them, or to play pranks on their friends. It's precisely to play with these nuances that Menino Maluquinho's father has gathered thirteen comic books in this album. His characters tell one tall tale after another, always with good humor and lots of craziness. From fisherman's lies to stories about aliens, there are all kinds of tall tales. Maluquinho and his gang show in their comics that telling lies is not for everyone. It requires creativity, talent and cleverness! When a lie is well told, it is so unbelievable that it almost seems true! It can even save someone from some embarrassing situations, but, deep down, what the gang shows is that lies have short legs!
