

Introducing SHIPSTORE

A Multi-Carrier Shipping Execution Platform

For Small Parcel & LTL

SHIPSTORE software is found at the center of thousands of shipping programs across every conceivable ERP/WMS/Inventory/eCommerce application. SHIPSTORE provides flexible parcel and LTL shipping solutions for companies of all sizes, ranging from our powerful enterprise SHIPSTORE to our cost-efficient SHIPSTORE cloud-based application.

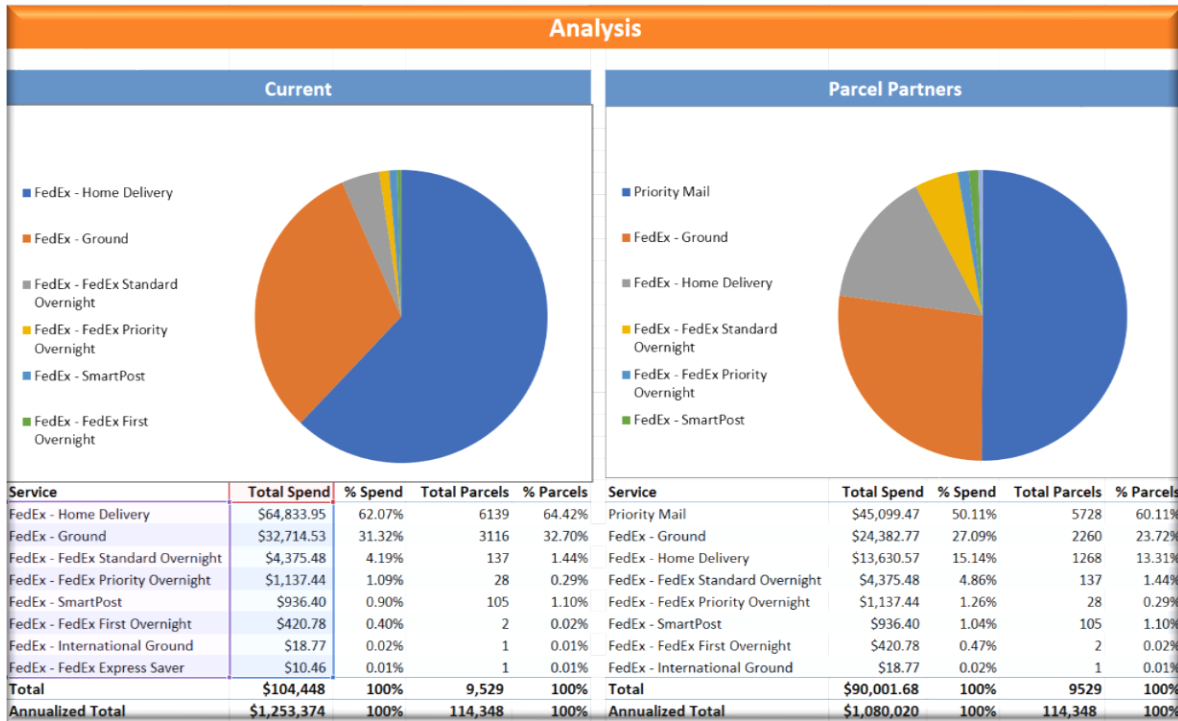

In addition to lowering a client's overall shipping costs with a multi-carrier state-of-the-art shipping platform, SHIPSTORE has exclusive and preferred shipping rates for both small parcel and LTL.

KEY BENEFITS:

- No upfront cost or investment – nothing saved equals nothing owed
- Consolidates your small parcel and LTL into a single platform
- **USPS exclusive Priority Mail rates second only to Amazon**
- **FREE rate analysis**
- Preferred rates with both small parcel and LTL carriers (including regional carriers)
- Integrates into most ERP and WMS platforms for improved efficiencies
- Reduces need for multiple shipping terminals at the docks
- **Much, Much More**
