LEGEND FACT : Satyajit Ray

(Pic courtesy : Arijit Bhattacharyya)

Jai Narayan Prasad. Coming generation will understand much later that there was an Oscar Winning director named Satyajit Ray in this country, who apart from directing, writing detective stories for children, writing screenplays, drawing, writing songs, giving music, playing piano, editing, camera operation, designing book covers, having food with every member of his cast/film unit, taking care of their payments, etc. had 15-16 qualities. But, he had all the qualities of acting. Before the final take, he used to tell his artists by acting with regular stepping that I want this, that too in a calm manner explaining to his artists. Hardly anyone in India has so many qualities! Some were experts in editing, others in operating a movie camera. Some had all three qualities, but none of the others. The only Kishore Kumar in Mumbai had four-five qualities. Kishore Kumar had the qualities of acting, singing, giving music, producing films etc. In today's time, no director has so many qualities in Mumbai, South India, Bengal and Assam. More films are made in these four places. By the way, about eight hundred films are made every year all over India.
