INDIA ON THE MOON'S LAP

The Prime Minister, Shri Narendra Modi visited the ISRO Telemetry Tracking and Command Network (ISTRAC) in Bengaluru after his arrival from Greece and addressed Team ISRO on the success of Chandrayaan-3. The Prime Minister met and interacted with ISRO scientists involved in the Chandrayaan-3 mission where he was also briefed about the findings and progress in the Chandrayaan-3 Mission. Addressing the scientists, the Prime Minister expressed great delight in being present at the ISRO Telemetry Tracking and Command Network (ISTRAC) in Bengaluru and said that such an occasion is extremely rare when the body and mind get filled with such happiness. Referring to the few special moments in everyone's lives when impatience starts to dominate, the Prime Minister noted that he experienced the exact same emotions during his tour to South Africa and Greece and said that his mind was focussed on the Chandrayaan 3 Mission at all times. Observing the inconvenience caused to the scientists at ISRO due to his impromptu plans to visit the ISTRAC, a visibly emotional Prime Minister said that he was eager to visit and salute the scientists for their diligence, dedication, courage, devotion and passion. The Prime Minister said that this is not a simple success. He said this achievement heralds India's scientific power in infinite space. An elated Prime Minister exclaimed, "India is on the Moon, We have our national pride placed on the Moon". Highlighting this unprecedented achievement, the Prime Minister said "This is today's India that is fearless and relentless. This is an India that thinks new and in a novel way, the one that goes to the dark zone and spreads light in the world. This India will provide solutions to the big problems of the world in the 21st century." The Prime Minister said that the moment of the touchdown has become immortal in the consciousness of the nation. "The moment of touchdown is one of the most inspiring moments of this century."
