YOGA WORLD

People perform yoga at 9th annual International Day of Yoga 2023 celebrations at UN Headquarters, in New York on June 21, 2023. PM Narendra Modi was presents on the occasion. I am told that almost every nationality is represented here today. And, what an amazing cause to bring us all together - Yoga! Yoga means - to

Unite. So, your coming together is an expression of another form of yoga. I remember, about nine years ago, right here at the UN, I had the honour to propose celebrating the International Day of Yoga on 21st June. Yoga comes from India. And, it is a very old tradition. But like all ancient Indian traditions, it is also living and

dynamic. Yoga is free - from copyright, free from patents, and free from royalty payments. Yoga is adaptable - to your age, gender, and fitness level. Yoga is portable - you can do it at home, or at work, or in transit. Yoga is flexible - you can practice it alone, or in a group, learn from a teacher, or be self-taught. Yoga is unifying - it is for

everyone, for all ethnicities, for all faiths, and for all cultures. Yoga is truly universal. Let us use the power of Yoga to build bridges of friendship, a peaceful world, and a cleaner, greener and sustainable future. Let us join hands together to realize the goal of - "One Earth, One family, One Future". I conclude with a wish:
